# What's in the box

# Install the battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time

### **Ø**NOTES

- Use only the battery supplied with this product. The operating time for using the rechargeable battery is short. If you want to monitor your baby for a long time, we recommend you connect the parent
- · If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

# Install the battery as shown below.

# **P**NOTE

· Make sure the THIS SIDE UP is facing up while inserting the battery.

# Replace the battery

To replace the battery, unplug the battery connector from the socket, and then pull the battery out of the battery compartment. Follow the steps above to install the battery.

# Connect and charge the battery

### **O**NOTES

- · Use only the power adapters supplied with this
- product. · Make sure the electrical outlets are not controlled
- by wall switches The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children

# Connect the baby monitor

### When you have connected the parent unit and installed its battery for the first time, it powers on automatically. The battery icon indicates the

battery status (see the following table).

Charge the parent unit battery

- The parent unit battery is fully charged after 11 hours of continuous charging.
  - It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging. Rattery Rattery Action

	indicators	status	Action
	The battery icon is off.	No battery is installed but operates using AC power.	Install the parent unit battery. Charge without interruption (at least 30 minutes).
	The screen displays LOW BATTERY and	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
	The battery icon becomes solid	The battery is fully charged.	To keep the battery charged, connect it to AC power when not in use.

When it is fully charged, you can expect the following performance:

Operation	Operating time
While in standby* mode	Up to 5 days
While in monitoring** mode	Up to 4.5 hours
mode	

- \* The parent unit is not charging nor in use.
- \*\* Operating times vary depending on the sensitivity level you set, your actual use and the age of the battery.

# Before use

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such

# Test your audio monitor

You may test the baby monitor before initial use. and at regular times thereafter.

# ()CAUTION

 For hearing protection, make sure the parent unit is more than 1 meter (3 feet) away from the baby unit. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press ▼ VOLUME on the parent unit to lower or mute the noise.

- 1. Make sure your baby unit and parent unit
- 2. Speak towards the microphone of the baby unit. You will hear the sound at the parent unit, and see the visual sound indicators light up.

• When the parent unit displays NOT LINKED and If flashes, move the parent unit closer to the baby unit (observe the minimum distance of 1 meter/ 3 feet). You can also check if the baby monitor is connected to a live power socket and switched on.

· Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the

### Talk to the baby unit

You can broadcast messages from a parent unit to the baby unit and the other parent unit. If you have two parent units, you can use both of them at the same time to talk to the baby unit

 Press and hold TALK on the side of the parent unit. The screen displays TALK when the voice connection to the baby unit is made. Speak towards the MIC on the parent unit. Your voice is broadcast to the baby unit and the other parent unit.

# **O**NOTES

- If the speaker volume of the parent unit is set to VOLUME OFF, it will be reset to the default volume when you press and hold TALK.
- When a parent unit is talking to the baby unit, it is also broadcast to the other parent unit. However sounds from the baby unit cannot be transmitted to the parent units at the moment

# Find/page the parent unit

Use this feature to find misplaced parent units. 1. Press **PAGE** on the baby unit. All idle parent

- units ring and display PAGING.
- 2. To end paging, press any key on the parent unit, or press PAGE on the baby unit.

- Paging rings all parent units even if the speaker volume of parent unit is set to **VOLUME OFF**.
- · The baby unit cannot page any parent unit that is turned off, out of range or talking to the baby unit.

# General product care

To keep this product working well and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors
- DO NOT expose it to direct sunlight or moisture. Avoid dropping the product or treating it roughly.
- Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby
- unit in water and do not clean them under the tap. DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.

### Storage

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adapters in a cool and dry place

Why can't I hear

- 1. Follow all warnings and instructions marked on the product.
- Adult setup is required. 3. This product is intended as an aid. It is not
- a substitute for responsible and proper adult supervision and should not be used as such.
- 4. This product is not intended for use as a medical monitor.
- 5. Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower
- CAUTION: Use only the batteries indicated in this manual. There may be a risk of explosion

if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT166342/ BT266342) for the parent unit. Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in The RBRC® seal.

- 7. Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 6V DC 400mA; Parent unit power adapter: Output: 6V DC 400mA
- 8. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- 9. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- 10.Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning. 11.Unplug the power cords before replacing
- batteries. 12.Do not cut off the power adapters to replace them with other plugs, as this causes a
- hazardous situation 13.Do not allow anything to rest on the power cords. Do not install this product where the
- cords may be walked on or crimped. 14. This product should be operated only from
- the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company
- 15.Do not overload wall outlets or use an extension cord.
- 16.Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- 17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.

19.To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used 20. You should test the sound reception every

- time you turn on the units or move one of the components
- 21.Periodically examine all components for damage.
- 22.Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors. cordless phones, scanners, etc.
- 23. Children should be supervised to ensure that they do not play with the product.
- 24. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities. or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

### SAVE THESE INSTRUCTIONS

### Cautions

- 1. Use and store the product at a temperature between 32°F and 104°F
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source 3. Batteries should not be exposed to excessive
- heat such as bright sunshine or fire
- 4. Make sure the baby unit(s) and the adapter cord(s) are always out of reach of the baby. at least 3 feet away from the baby or crib, to avoid a possible strangulation hazard. 5. Never place the baby unit(s) inside the
- baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket 6. Other electronic products may cause
- interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones. intercoms, room monitors, televisions. personal computers, kitchen appliances and cordless telephones.

## Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless devices):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

### Pacemaker patients

- Should keep wireless devices at least six inches from the pacemaker
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

### Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

# The RBRC® seal

The RBRC® seal on the nickel-metal battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC® program provides a convenient alternative to placing used nickel-metal batteries into the trash or municipal waste, which may be illegal in your area. VTech's participation in RBRC® makes it easy for you to drop off the spent battery at local retailers participating in the RBRC® program or at authorized VTech product service centers. Please cal 1 (800) 8 BATTERY® for information on Ni-MH battery

recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

# FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**FCC** and **IC** regulations

- Reorient or relocate the receiving antenna. Increase the separation between the equipment
- and receiver. · Connect the equipment into an outlet on a circuit
- different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV
- technician for help Changes or modifications to this equipment not

expressly approved by the party responsible for compliance could void the user's authority to operate

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in (20 cm) or more The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from your face. This Class B digital apparatus complies with Canadian

CAN ICES-3 (B)/NMB-3(B)

# **Industry Canada**

This device complies with Industry Canada licenceexempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation. The term "IC:" before the certification/registration

number only signifies that the Industry Canada technical specifications were met. This product meets the applicable Industry Canada technical specifications.

# RF radiation exposure statement

The baby unit complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

# Mesures de sécurité importantes

powered off and charging.

Lorsque vous utilisez votre appareil, vous devriez toujours suivre certaines mesures de précaution de base afin de réduire les risques d'incendie. d'électrocution et de blessures corporelles, dont ceux qui suivent:

- 1. Observez toutes les instructions et mises en garde inscrites sur l'appareil. 2. L'installation par un adulte est requise.
- 3. Ce produit a été concu pour être un dispositif
- d'appoint seulement. Il n'est pas le remplacement d'une supervision responsable et adéquate par un adulte et ne devrait pas être utilisé comme telle.
- 4. Ce produit n'est pas conçu pour être utilisé en tant que moniteur médical. 5. N'utilisez pas cet appareil près de l'eau ni de toute autre source d'humidité, par exemple, près d'une baignoire, cuve à lessive, évier de cuisine, dans un sous-sol humide ni près d'une piscine, dans un soussol humide ou une douche.

6. MISE EN GARDE: Il peut y avoir un risque d'explosion si vous utilisez le mauvais type de piles pour l'unité du parent. N'utilisez que le bloc-piles rechargeable inclus ou le bloc-piles de rechange (BT166342/BT266342). N'incinérez pas les piles. Celles-ci risqueraient d'exploser. Jetez les piles usées selon les renseignements suivant le sceau du RBRCMD

7. N'utilisez que les adaptateurs inclus avec ce

- produit. L'utilisation d'un adaptateur dont la polarité ou la tension serait inadéquate risque d'endommager sérieusement le produit et mettre votre sécurité en péril. Adaptateur de l'unité du bébé: Sortie 6 V CC 400 mA. Adaptateur de l'unité du parent:
- Sortie: 6 V CC 400 mA. Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs secteur ont été concus pour être orientés correctement, soit à la verticale ou au plancher. Les broches n'ont pas été conçues pour supporter le poids du bloc d'alimentation et le maintenir en place si celuici est branché dans
- Pour les PRODUITS À BRANCHER À UNE PRISE DE COURANT, la prise de courant doit être installée près du produit, afin d'assurer une accessibilité sécuritaire à la prise de courant.

une prise au plafond, sous une table ou dans un

- 10. Débranchez ce produit de la prise de courant avant de procéder au nettoyage. N'utilisez pas de nettoyants en aérosols. Utilisez un chiffon humide pour le nettover.
- 11. Débranchez les cordons d'alimentation avant de remplacer le bloc-piles.
- 12. Ne coupez pas les cordons d'alimentation pour remplacer les fiches, car ceci peut présenter un danger potentiel. 13. Ne laissez aucun objet reposer ni appuyer sur le

cordon d'alimentation. N'installez pas cet appareil

dans un endroit où l'on risque d'écraser le cordon

- d'alimentation ou de le piétiner 14. Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur l'étiquette. Si vous ne connaissez pas le type d'alimentation que vous possédez à votre domicile, consultez votre
- marchand ou votre compagnie locale d'électricité. 15. Ne surchargez pas les prises de courant murales ni les rallonges électriques.
- 16. Ne placez pas cet appareil sur un chariot, meuble, trépied, support de montage ni table chancelants.
- 17. Les trous et ouvertures du boîtier, situés à l'arrière de l'appareil ou sous celui-ci, servent à aérer l'appareil. Pour l'empêcher de surchauffer, ne bloquez sous aucun prétexte ces ouvertures et n'empêchez pas l'aération adéquate de l'appareil

- en le placant sur un lit, divan, tapis ou toute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'apparei dans un endroit avant de vous assurer qu'il y ait une bonne circulation d'air.
- 18. N'enfoncez jamais d'objets à travers les ouvertures de cet appareil, car ils pourraient entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégénérer en incendies ou en risques d'électrocution. Ne renversez jamais de liquide dans ce produit.
- 19. Afin de réduire les risques d'électrocution, ne démontez pas cet appareil, mais apportez-le dans un centre de service autorisé. L'ouverture du boîtier ou le retrait de toutes pièces que contient cet appareil, à l'exception de l'accès autorisé à certaines portes ou ouvertures, risque de vous exposer à des points de tension dangereux ou d'autres dangers. Un remontage incorrect peut par la suite présenter des risques d'électrocution.
- 20. Vous devriez tester la réception chaque fois que vous mettez l'appareil en fonction 21. Examinez les composantes afin de vérifier si
- celles-ci ne sont pas endommagées. 22. Soyez avisé de la perte de la confidentialité lorsque vous utilisez les ondes publiques. Les conversations peuvent être entendues par d'autres moniteurs de bébé, des téléphones sans fil, des
- 23. Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil.
- 24. Le produit n'est pas conçu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances. à moins qu'on leur ait donné suffisamment de supervision ou d'instructions relativement à l'utilisation de l'appareil par une personne responsable de leur sécurité

# **CONSERVEZ CES INSTRUCTIONS**

# Mises en garde

- 1. Utilisez et entreposez le produit à une température entre 0° C (32°F) et 40°C (104° F).
- 2. N'exposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de chauffage
- 3. Le bloc-piles ne doit pas être exposé à la chaleur excessive telle que la lumière du soleil ou au feu.

4. Assurez-vous que le moniteur et le cordon de l'adaptateur sont toujours hors de portée des enfants, à au moins 1 mètre (3 pieds) de l'enfant ou du berceau, pour éviter tout risque de strangulation.

berceau ou du parc de bébé. Ne iamais couvrir le

5. Ne jamais placer le moniteur à l'intérieur du

moniteur ou l'unité (s) portative avec un article tel une serviette ou une couverture. 6. D'autres équipements électroniques peuvent produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur vidéo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil, radios, téléphones

cellulaires, interphones, moniteurs, téléphones,

ordinateurs personnels, électroménagers et

### téléphones sans fil. Stimulateurs cardiaques implantés dans

l'organisme

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil): L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante.

a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des Etats-Unis, la firme

# Avis aux détenteurs de stimulateurs cardiaques

- Vous devriez maintenir les dispositifs sans fil à au moins six pouces du simulateur cardiaque.
- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est

L'étude effectuée par l'organisme WRS n'a pas

### identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci. Champs électromagnétiques (EMF)

Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons aujourd'hui.

# Limited warranty

What does this limited warranty cover? The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the

### What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

United States of America and Canada.

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement

# How long is the limited warranty period?

to take approximately 30 days.

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

### What is not covered by this limited warranty? This limited warranty does not cover:

- 1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or Product that has been damaged due to repair,
- Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems: or 4. Product to the extent that the problem is caused by use with non-VTech accessories; or

authorized service representative of VTech; or

5. Product whose warranty/quality stickers, product

serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or Product purchased, used, serviced, or shipped for repair from outside the United States of America

or Canada, or used for commercial or institutional

- purposes (including but not limited to Products used for rental purposes); or Product returned without a valid proof of purchase
- (see item 2 on the next page); or 8. Charges for installation or set up, adjustment of customer controls, and installation or repair of

### systems outside the unit. How do you get warranty service?

features may save you a service call.

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377 NOTE: Before calling for service, please review the

user's manual - a check of the Product's controls and

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited

### What must you return with the Product to get warranty service?

- along with a description of the malfunction or difficulty; and
- 3. Provide your name, complete and correct mailing address, and telephone number.

should not rely on any such modification State/Provincial Law Rights: This warranty gives you

specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/ provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
