Important safety nstructions

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- 1. Follow all warnings and instructions marked on the product.
- Adult setup is required.
- This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be used as such.
- This product is not intended for use as a medical monitor
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or
- **CAUTION**: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT298555) for the parent unit. Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in The RBRC® seal. Use only the adapters included with this
- product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Input 100-240V AC 50/60 Hz; output: 6V DC 1A Parent unit power adapter: Input 100-120V AC 50/60 Hz; output: 6V DC 800 mA.
- 8. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- 9. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning. 10. Unplug the power cords before replacing
- 11. Do not cut off the power adapters to replace them with other plugs, as this causes a
- hazardous situation 12. Do not allow anything to rest on the power cords. Do not install this product where the
- cords may be walked on or crimped. 13. This product should be operated only from the type of power source indicated on the

- of power supply in your home, consult your dealer or local power company 14. Do not overload wall outlets or use an
 - extension cord.
 - 15. Do not place this product on an unstable table, shelf, stand or other unstable surfaces. 16. This product should not be placed in

marking label. If you are not sure of the type

- any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register
- 17. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on
- 18. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
- You should test the sound reception every time you turn on the units or move one of the components.
- 20. Periodically examine all components for damage
- 21. Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.
- 22. Children should be supervised to ensure that they do not play with the product.
- 23. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

Cautions

1. Use and store the product at a temperature

between 32°F and 104°F. Do not expose the product to extreme

- cold, heat or direct sunlight. Do not put the product close to a heating source. 3. Batteries should not be exposed to
- excessive heat such as bright sunshine 4. Make sure the baby unit(s) and the adapter cord(s) are always out of reach of the baby, at least 3 feet away from the baby or crib, to avoid a possible strangulation
- 5. Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.
- Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

Precautions for users of implanted cardiac

Cardiac pacemakers (applies only to digital cordless devices):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

Pacemaker patients

hazard.

- Should keep wireless devices at least six inches from the pacemaker.
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today

Install the battery

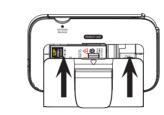

You can power up the parent unit by connecting it to AC power or to the rechargeable battery provided. Even if the parent unit is connected to AC power, we recommend you also install the battery. This guarantees continual operation in case of a power outage.

Install the battery as shown below.

 With the label THIS SIDE UP facing up, insert the small tabs of the battery into the slots inside the battery compartment. Make sure the metallic contact is correctly oriented as shown below. Push the battery into the battery compartment until it clicks securely into place.

2. Align the battery compartment cover flat against the battery compartment, then slide it towards the center of the parent unit until it clicks into place.

Replace the battery

To replace the battery, press down on the large tab of the battery and pull it out of the battery compartment, then follow the steps above to install the battery.

The operating time for using the Connect the parent unit rechargeable battery is short. If you want

recommend you connect the parent unit to

Charge the parent unit battery

Once you have installed the parent unit and its battery, press and hold \circlearrowleft to turn it on. The battery icon indicates the battery status (see the table below). The parent unit battery is fully charged after 12 hours of continuous charging. The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery. When the parent unit is operating in battery

mode and the battery is low, you need to charge the parent unit without interruption for at least 30 minutes to give the parent unit enough charge to use for a short time. When operating in low battery condition, the parent unit displays Battery low and . The parent unit plays short beeps to alert you.

The following table summarizes the battery charge indicators and actions to take.

		Action		
The battery icon is off and -== displays.	No battery is installed but operates using AC power, or the battery has been installed incorrectly.	Install the parent unit battery. Charge without interruption (at least 30 minutes).

use, and at regular times thereafter. To test your baby monitor:

- same room to test the product. 2. Press and hold \odot on the parent unit the
- 3. Slide **ON/OFF** on the baby unit to turn it on.

1. Place the parent unit and the baby unit in the

baby unit. Your baby monitor is now ready

If both units are not connected, the parent unit displays No Link for a few seconds Then it displays Please Wait... and T

Positioning the baby monitor

Place the parent unit within the operating range of the baby unit. We recommend the parent unit is at least 3 feet away from the baby unit to avoid audio feedback. If you still experience audio feedback, move the parent unit and the baby unit farther apart.

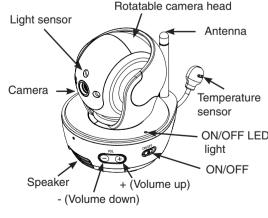

For better image quality, do not place the baby unit too far away from your baby.

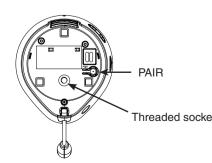

Operating range

The operating range of the baby monitor is up to 1,000 feet outdoors or 150 feet indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

1. Press MENU/select when the parent unit is

- 2. Press ▼ or ▲ to choose ALERT TONE, then press MENU/SELECT to select.
- Press ▼ or ▲ to choose No Link Alert.

To set the no link alert of the parent unit:

4. Press ◀ or ▶ to choose **On** or **Off**, then press MENU/SELECT to confirm your selection.

Sound Alert

No link alert

When the parent unit volume is turned off manually, you may turn on the sound alert so that the parent unit beeps as soon as the baby unit detects sounds which light up four sound level indicators on the parent unit.

To set the sound alert of the baby unit:

- 1. Press **MENU/select** when the parent unit is
- 2. Press ▼ or ▲ to choose ALERT TONE, then press MENU/SELECT to select.
- Press ▼ or ▲ to choose Sound Alert.
- 4. Press ◀ or ▶ to choose **On** or **Off**, then press MENU/SELECT to confirm your selection.

Monitor the temperature

Minimum temperature

You can set the desired minimum room temperature of the baby unit. The minimum temperature can be set between 52 °F (11 °C) and 69 °F (20 °C).

To set the minimum temperature of the baby

- 1. Press **MENU/select** when the parent unit is
- 2. Press ▼ or ▲ to choose TEMPERATURE. then press MENU/SELECT to select.
- 3. Press ▼ or ▲ to choose Minimum, then press MENU/SELECT to select.
- 4. Press ▼ or ▲ to choose a desired baby unit or all baby units.
- 5. Press ◀ or ▶ to choose the desired temperature, then press MENU/SELECT to confirm your selection.

You can set the desired maximum room temperature of the baby unit. The maximum temperature can be set between 70 °F (21 °C) and 86 °F (30 °C).

Maximum temperature

To set the maximum temperature of the baby

- 1. Press **MENU/select** when the parent unit is not in use
- 2. Press ▼ or ▲ to choose TEMPERATURE, then press MENU/SELECT to select. 3. Press ▼ or ▲ to choose Maximum, then
- press MENU/SELECT to select.
- 4. Press ▼ or ▲ to choose a desired baby unit or all baby units
- 5. Press ◀ or ▶ to choose the desired temperature, then press MENU/SELECT to confirm your selection.

Temperature alert

You can set whether the parent unit beeps whenever the temperature is out of the preset temperature range

To set the temperature alert of the baby unit: 1. Press **MENU/select** when the parent unit is

- 2. Press ▼ or ▲ to choose TEMPERATURE, then press **MENU/SELECT** to select. 3. Press ▼ or ▲ to choose Alert, then press
- MENU/SELECT to select. 4. Press ▼ or ▲ to choose a desired baby unit
- or all baby units. 5. Press ◀ or ▶ to choose On or Off, then press MENU/SELECT to confirm your selection.

Temperature format

You can set the temperature scale of the baby

To change the temperature scale:

- 1. Press **MENU/select** when the parent unit is
- 2. Press ▼ or ▲ to choose TEMPERATURE. then press MENU/SELECT to select.
- Press ▼ or ▲ to choose Format
- 4. Press ◀or ▶ to choose °F or °C, then press MENU/SELECT to confirm your selection.

Adjust the sound sensitivity

You can use the parent unit to change the sound sensitivity level of the baby units from Level 1 to **Level 5**. The higher the sound sensitivity level is set, the more sensitive the baby unit is in detecting sounds for transmitting to the parent

If you want the baby unit to be very sensitive in detecting sounds, you may set the sensitivity level to **Level 5**, so that the baby unit will always detect any sounds including background noises for transmitting to the parent unit. If you want the baby unit to be less sensitive in detecting sounds, you may set the sensitivity level to a lower level (Level 1 to Level 4), so that the baby unit will transmit sounds to the parent unit only when your baby is very noisy or crying loudly.

To set the sound sensitivity level of the baby

- 1. Press **MENU/select** when the parent unit is
- 2. Press ▼ or ▲ to choose SENSITIVITY, then press MENU/SELECT to select.
- 3. Press ▼ or ▲ to choose a desired baby unit or all baby units.
- 4. Press ◀ or ▶ to choose the desired sensitivity level, then press MENU/SELECT to confirm your selection.

Sound Activation

When the parent unit screen is turned off manually, you can set the screen to be turned on automatically whenever there are sounds detected from the baby units. The parent unit screen will turn off automatically when no sounds are detected from the baby units within 50 seconds.

To turn the sound activation on or off:

- 1. Press **MENU/select** when the parent unit is not in use
- 2. Press ▼ or ▲ to choose SOUND ACTIVATION
- Press ◀ or ▶ to choose On or Off.

If you set the sensitivity level to Level 5, the baby unit will be very sensitive and detect any sounds including background noises. These background noises may disrupt the silence and prevent the sound

activation feature to work properly.

Vibration

You may turn on the vibration alert so that the parent unit vibrates as soon as the baby unit detects sounds which light up three sound level indicators on the parent unit.

To change the vibration setting:

- 1. Press **MENU/select** when the parent unit is not
- 2. Press ▼ or ▲ to choose VIBRATION, then press MENU/SELECT to select.
- Press ▼ or ▲ to choose On if speaker is off, Always on or Off.
- On if speaker is off The parent unit vibrates once whenever the baby units detect sounds which light up three sound level indicators while the speaker of the parent unit is turned off
- Always on The parent unit vibrates once whenever the baby units detect sounds which light up three sound level indicators. • Off - The parent unit will not vibrate even if
- the baby units detect sounds. 4. Press MENU/SELECT to confirm your
- selection.

If you set the sensitivity level to Level 5, the baby unit will be very sensitive and detect any sounds including background noises. These background noises may disrupt the silence and prevent the vibration feature to work properly.

Pair and unpair the baby unit Pair new baby unit

General product care

To keep this product working well and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- · Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.
- DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adapters in a cool and dry place.

Frequently asked questions

Below are the questions most frequently asked about the baby monitor. If you cannot find the answer to your question, contact customer service by visiting our website at www.vtechphones.com or

calling 1 (800) 595-9511.

Why does the baby monitor not respond normally?	Try the following (in the order listed) for common sure: 1. Disconnect the power the baby units and the parent unit. 2. Remove the batteries in the parent unit. Their install the batteries again. 3. Wait a few minutes before connecting power back to the bab units and the parent unit. 4. Turn on the baby units and the parent unit. 5. Wait for the parent unit to synchronize with the baby units. Allow up to one minute for this to take place.
Why don't the power-on light of the baby unit and parent unit go on when I switch on the units?	Perhaps the rechargeab battery of the parent unit is empty and the parent unit is not connected to the mains. Insert the appliance plug into the parent unit and put the adapter in a wall socket. Then press Θ to switch on the parent unit and to establish connection with the baby unit.
	Perhaps the baby unit is not connected to the mains. Connect the baby unit to the mains. Then

Why does the parent The baby unit also picks unit react too quickly to up other sounds than other sounds? those of your baby. Adjust the sensitivity level to a lower level or adjust the speaker volume on the parent unit.

You may have set the

The RBRC® seal

The RBRC® seal on the lithium-ion battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives. when taken out of service within the United States and

The RBRC® program provides a convenient alternative to placing used lithium-ion batteries into the trash or municipal waste, which may be illegal in your area. VTech's participation in RBRC® makes it easy for you to drop off the spent battery at local retailers participating in the RBRC® program or at authorized Tech product service centers. Please call 1 (800) 8 BATTERY[™] for information on Li-ion battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of

exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to

Limited warranty

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided n the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

used in the United States of America and Canada.

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacemen to take approximately 30 days.

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

What is not covered by this limited warranty? This limited warranty does not cover

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or 2. Product that has been damaged due to repair,

cable or antenna systems: or

- alteration or modification by anyone other than an authorized service representative of VTech; or 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or
- use with non-VTech accessories; or 5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or

4. Product to the extent that the problem is caused by

repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or 7. Product returned without a valid proof of purchase

8. Charges for installation or set up, adjustment of customer controls, and installation or repair of

(see item 2 on the next page); or

features may save you a service call

systems outside the unit.

How do you get warranty service? NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation. delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty. VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of

What must you return with the Product to get warranty service?

1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and

2. Include a "valid proof of purchase" (sales receipt)

This warranty is the complete and exclusive agreement

Products that are not covered by this limited warranty.

- identifying the Product purchased (Product model) and the date of purchase or receipt; and 3. Provide your name, complete and correct mailing

between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification

specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an

implied warranty lasts, so the above limitation may not

apply to you. In no event shall VTech be liable for any

State/Provincial Law Rights: This warranty gives you

damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or imitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
