11 – Charging pole

Charger overview

1 – Charging pole

Display icons overview

Icon	Description
🔋	The battery icon flashes when the battery is low and needs charging.
🔋⇄	The battery icon animates when the battery is charging.
🔕	The handset ringer is turned off.
✉	There are new voicemail received from your telephone service provider.
1/13	The message number currently playing and total number of new/old messages recorded.
ANS ON	The answering system is turned on.
ECO	The ECO mode activates automatically to reduce power consumption when the handset is within range from the telephone base.
NEW	There are new caller ID log entries.

Connect

You can choose to connect the telephone base for desktop usage or wall mounting.

NOTES
- Use only the adapters provided.
- Make sure the electrical outlets are not controlled by wall switches.
- The adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

TIP
- If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a **DSL filter** (not included) between the telephone line cord and telephone wall jack. Contact your DSL service provider for more information.

Connect the telephone base

Connect the charger

Mount the telephone base

1. Connect the telephone line cord to the telephone base. Route it through the wall mount bracket, and then connect it to the wall jack.
2. Align and place the wall mount bracket on the standard wall plate.
3. Align and place the telephone base on the wall mount bracket. Slide it down until it clicks securely in place.
4. Connect the power adapter.

Install and charge the battery

Install the battery
Install the battery as shown below.

NOTES
- Use only the battery provided.
- Charge the battery provided with this product only in accordance with the instructions and limitations specified in this manual
- The battery will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Once you have installed the battery, the handset LCD display indicates the battery status (see the table below).

NOTES
- For best performance, keep the handset in the telephone base or charger when not in use.
- The battery is fully charged after 12 hours of continuous charging.

Charge the battery

Place the handset in the telephone base or the charger to charge.

Battery indicators	Battery status	Action
The screen is blank, or shows **Put in charger** and 🔋 flashes.	The battery has no charge or very little charge. The handset cannot be used.	Charge without interruption (at least 30 minutes).
The screen shows **Low** and 🔋 flashes.	The battery has enough charge to be used for a short time.	Charge without interruption (at least 30 minutes).
The screen shows **HANDSET X**.	The battery is charged.	To keep the battery charged, place it in the telephone base or charger when not in use.

Before use

After you install your telephone or power returns following a power outage, the handset will prompt you to set the date and time, and the answering system through voice guide.

Set date and time

NOTE
- Make sure you set the date and time including the year correctly; otherwise the answering system does not announce the correct day of the week for your recorded messages time stamp.

1. Use the dialing keys (**0**-**9**) to enter the month (**MM**), date (**DD**) and year (**YY**). Then press **SELECT**.
2. Use the dialing keys (**0**-**9**) to enter the hour (**HH**) and minute (**MM**). Then press ▼ or ▲ to choose **AM** or **PM**.
3. Press **SELECT** to save.

After the setting for the date and time, the handset will display **Voice guide to...** and **set up Ans sys?** alternatively.

Set answering system through voice guide

This feature assists you to do the basic setup of the answering system. You can follow the voice guide to record your own announcement, set the number of rings and the message alert tone.

1. Press **SELECT** to start the voice guide for the answering system setup. You hear the voice prompt *"Hello! This voice guide will assist you with the basic setup of your answering system."*
2. Setup your answering system by inputting the designated numbers as instructed in the voice guide.

Check for dial tone

Press 📞. If you hear a dial tone, the installation is successful.

If you do not hear a dial tone:
- Make sure the installation procedures described above are properly done.
- It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/VoIP service provider for more information.

Operating range

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance - which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays **Out of range or no pwr at base**.
If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press 📞. Move closer to the telephone base, and then press 📞 to answer the call. If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

Using the handset menu

1. Press **MENU** when the phone is not in use.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press **SELECT** to enter that menu.

- To return to the previous menu, press **CANCEL**.
- To return to idle mode, press and hold **CANCEL**.

Configure your telephone

Set language
The LCD language is preset to English. You can select English, French or Spanish to be used in all screen displays.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Settings**, and then press **SELECT** twice.
3. Scroll to choose **English**, **Français** or **Español**, and then press **SELECT** to save.

Set date and time

NOTE
- Make sure you set the date and time including the year correctly; otherwise the answering system does not announce the correct day of the week for your recorded messages time stamp.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Set date/time**, and then press **SELECT**.
3. Use the dialing keys (**0**-**9**) to enter the month (**MM**), date (**DD**) and year (**YY**). Then press **SELECT**.
4. Use the dialing keys (**0**-**9**) to enter the hour (**HH**) and minute (**MM**). Then press ▼ or ▲ to choose **AM** or **PM**.
5. Press **SELECT** to save.

Temporary tone dialing
If you have pulse (rotary) service only, you can switch from pulse to tone dialing temporarily during a call.
1. During a call, press TONE✳.
2. Use the dialing keys to enter the relevant numbers dialed. The telephone sends touch-tone signals. It automatically returns to pulse dialing mode after you end the call.

Telephone operation

Handset control key panel:

CHARGE
REDIAL/PAUSE · MENU/SELECT
TALK/FLASH · VOLUME/CID · OFF/CANCEL
1 ✉ · 2 ABC · 3 DEF
4 GHI · 5 JKL · 6 MNO
7 PQRS · 8 TUV · 9 WXYZ
✳ TONE · 0 OPER · # QUIET
🔊 · MUTE/DELETE · INT

Make a call

1. Press 📞 or 🔊, and then dial the telephone number.

Answer a call
- Press 📞, 🔊, or any dialing key.

End a call
- Press **OFF** on the handset, or put the handset into the telephone base or charger.

Speakerphone
- During a call, press 🔊 on the handset to switch between speakerphone and handset earpiece.

Volume
- During a call, press ▼/VOLUME/▲ on the handset to adjust the listening volume.

NOTE
- The handset earpiece volume setting and speakerphone volume setting are independent.

Redial list
Each handset stores the last 10 telephone numbers dialed. When there are already 10 entries, the oldest entry is deleted to make room for the new entry.

Review the redial list
1. Press **REDIAL** when the handset is not in use.
2. Press ▲, or **REDIAL** repeatedly until the desired entry displays.

Dial a redial list entry
- When the desired entry displays, press 📞 or 🔊.

Delete a redial list entry
- When the desired redial entry displays, press **DELETE**.

Intercom
Use the intercom features for conversations between two handsets.
1. Press **INT** on your handset when not in use. Use the dialing keys to enter a destination handset number if necessary.
2. To answer the intercom call, press 📞, 🔊, or any dialing key on the destination handset.
3. To end the intercom call, press **OFF** or place the handset back in the telephone base or charger.

Find handset

Use this feature to find all system handsets.

To start paging:
- Press 📟FIND HANDSET on the telephone base. All idle handsets ring and display **** Paging ****.

To end paging:
- Press 📟FIND HANDSET again on the telephone base.
-OR-
- Press 📞, 🔊, OFF, or any dialing key on the handset.
-OR-
- Place the handset in the telephone base or charger.

NOTE
- Do not press and hold 📟FIND HANDSET for more than four seconds. It may lead to handset deregistration.

Answer an incoming call during an intercom call

If you receive an incoming call during an intercom call, there is an alert tone.
- To answer a call, press 📞. The intercom call ends automatically.
- To end the intercom call without answering the outside call, press **OFF**. The intercom call ends and the telephone continues to ring.

Call transfer using intercom
While on an outside call, you can use the intercom feature to transfer the call from one handset to another.
1. Press **INT** on your handset during a call. The current call is put on hold. Use the dialing keys to enter a destination handset number if necessary.
2. To answer the intercom call, press 📞, 🔊, or any dialing key on the destination handset. You can now have a private conservation before transferring the call.
3. From this intercom call, you have the following options:
- You can let the destination handset join you on the outside call in a three-way conversation. Press and hold **INT** on the originating handset.
- You can transfer the call. Press **OFF**, or place your handset back in the telephone base or charger. Your handset displays **Line in use**. The destination handset is then connected to the outside call.
- You can press **INT** to switch between the outside call (**Outside call** displays) and the intercom call (**Intercom** displays).
- The destination handset can end the intercom call by pressing **OFF**, or by placing the handset back in the telephone base or charger. The outside call continues with the original system handset.

Mute
The mute function allows you to hear the other party but the other party cannot hear you.
1. During a call, press **MUTE** on the handset. The screen displays **Muted**.
2. Press **MUTE** again to resume the conversation. The screen displays **Microphone on**.

Join a call in progress
You can use up to two system handsets at a time on an outside call.
- When a handset is already on a call, press 📞 on another handset to join the call.
- Press **OFF** or place the handset in the telephone base or charger to exit the call. The call continues until all handsets hang up.

Call waiting
When you subscribe to call waiting service from your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.
- Press **FLASH** to put the current call on hold and take the new call.
- Press **FLASH** to switch back and forth between calls.

Phonebook

The phonebook can store up to 50 entries, which are shared by all handsets. Each entry may consist of a telephone number up to 30 digits, and a name up to 15 characters.

Add a phonebook entry
1. Press **MENU** when the phone is not in use.
2. Scroll to **Phonebook** then press **SELECT**.
3. Press **SELECT** again to choose **Add new entry**.
4. Use the dialing keys to enter the number (up to 30 digits).
5. Press **SELECT** to move to enter the name.
6. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.
7. Press **SELECT** to save.

While entering numbers and names, you can:
- Press **DELETE** to erase a digit or character.
- Press and hold **DELETE** to erase the entire entry.
- Press ▼ or ▲ to move the cursor to the left or right.
- Press and hold **PAUSE** to insert a dialing pause (for entering phone numbers only).
- Press **0** to add a space (for entering names only).
- Press TONE✳ to add ✳ (✳ appears) or QUIET# to add # (# appears) (for entering phone numbers only).

Edit a phonebook entry
1. When the desired entry displays, press **SELECT**.
2. Use the dialing keys to edit the number, and then press **SELECT**.
3. Use the dialing keys to edit the name, and then press **SELECT** to save.

Delete a phonebook entry
1. When the desired entry displays, press **DELETE**.
2. When the screen displays **Delete entry?**, press **SELECT**.

Dial a phonebook entry
- When the desired entry appears, press 📞 or 🔊 to dial.

Caller ID

If you subscribe to caller ID service, information about each caller appears after the first or second ring. If you answer a call before the caller information appears on the screen, it will not be saved in the caller ID log.
The caller ID log stores up to 30 entries. Each entry has up to 24 digits for the phone number and 15 characters for the name.
If the telephone number has more that 15 digits, only the last 15 digits appear. If the name has more than 15 characters, only the first 15 characters are shown and saved in the caller ID log.

Review a caller ID log entry
1. Press **CID** when the phone is not in use.
2. Scroll to browse through the caller ID log.

Missed call indicator
When there are calls that have not been reviewed in the caller ID log, the handset displays **XX missed calls**.
Each time you review a caller ID log entry marked **NEW**, the number of missed calls decreases by one.
When you have reviewed all the missed calls, the missed call indicator no longer displays.
If you do not want to review the missed calls one by one, press and hold **CANCEL** on the idle handset to erase the missed call indicator. All the entries are then considered old.

Dial a caller ID log entry
- When the desired entry appears, press 📞 or 🔊 to dial.

Save a caller ID log entry to the phonebook
1. When the desired caller ID log entry displays, press **SELECT**.
2. Press **SELECT** to choose **To Phonebook**.
3. Use the dialing keys to modify the number, and then press **SELECT**.
4. Use the dialing keys to modify the name, and then press **SELECT** to save.

Delete a caller ID log entry
- When the desired caller ID log entry displays, press **DELETE**.

Delete all caller ID log entries
1. Press **MENU** when the phone is not in use.
2. Scroll to **Caller ID log** and then press **SELECT**.
3. Scroll to **Delete all** and then press **SELECT** twice.

Call block

If you have subscribed to caller ID service, you can set the telephone to block unknown calls and certain undesired calls. The call block list can store up to 20 entries.

Block unknown calls
1. Press **MENU** when the handset is not in use.
2. Scroll to **Call block**, and then press **SELECT**.
3. Scroll to choose **Calls w/no num**, and then press **SELECT**.
4. Scroll to choose **Unblock** or **Block**, and then press **SELECT** to save.

Add a call block list entry
1. Press **MENU** when the handset is not in use.
2. Scroll to **Call block**, and then press **SELECT**.
3. Press **SELECT** to choose **Block list**.
4. Scroll to choose **Add new entry**, and then press **SELECT**.
5. Use the dialing keys to enter the number (up to 30 digits).
6. Press **SELECT** to move to enter the name.
7. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.
8. Press **SELECT** to save.

Review call block list
1. Press **MENU** when the handset is not in use.
2. Scroll to **Call block**, and then press **SELECT**.
3. Press **SELECT** to choose **Block list**.
4. Press **SELECT** to choose **Review**.

Edit a call block list entry
1. When the desired entry displays, press **SELECT**.
2. Use the dialing keys to edit the number, and then press **SELECT**.
3. Use the dialing keys to edit the name, and then press **SELECT** to save.

Delete a call block list entry
- When the desired call block list entry displays, press **DETELE**.

Sound settings

Key tone
You can turn the key tone on or off.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings**, and then press **SELECT**.
3. Scroll to **Key tone**, and then press **SELECT**.
4. Scroll to choose **On** or **Off**, and then press **SELECT** to save.

Save a caller ID log entry to call block list
1. When the desired entry displays, press **SELECT**.
2. Scroll to **To Call block**, and then press **SELECT**.
3. Use the dialing keys to modify the number, and then press **SELECT**.
4. Use the dialing keys to modify the name, and then press **SELECT** to save.

Delete a call block list entry
- When the desired call block list entry displays, press **DETELE**.

Telephone base ringer volume
Press **VOL+** or **VOL−** on the telephone base to adjust the ringer volume when the telephone base is not in use.
When you set the ringer volume to zero, the base ringer is off. The telephone base announces, *"Base ringer is off."*

Temporary ringer silencing
When the telephone is ringing, you can temporarily silence the ringer of the handset without disconnecting the call. The next call rings normally at the preset volume.
- Press **OFF** or **MUTE** on the handset. The handset displays 🔕 and **Ringer muted** briefly.
- Press **VOL+** or **VOL−** on the telephone base to adjust the ringer volume.

Quiet mode
You can turn on the quiet mode for a period of time. During this period, all tones (except paging tone) and call screening are muted. When you turn on the quiet mode, the answering system turns on automatically.
1. Press and hold QUIET# on the handset when idle.
2. Use the dialing keys (**0**-**9**) to enter the duration, and then press **SELECT** to save.
- To turn off the quiet mode, press and hold QUIET# on the handset when idle.

Ringer tone
You can choose from different ringer tones for each handset.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Ringers**, and then press **SELECT**.
3. Scroll to choose **Ringer tone**, and then press **SELECT**.
4. Scroll to sample each ringer tone, and then press **SELECT** to save.

Handset ringer volume
You can adjust the ringer volume level, or turn the ringer off.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Ringers**, and then press **SELECT**.
3. Press **SELECT** to choose **Ringer volume**.
4. Press **SELECT** to adjust the volume, and then press **SELECT** to save.

NOTE
- If the handset ringer volume is set to off, that handset is silenced for all incoming calls except paging tone.

About answering system and voicemail service

For message recording, your telephone has a built-in answering system, and it also supports voicemail service offered by your telephone service provider (subscription is required, and fee may apply).
The main differences between them are:

Category	Built-in answering system	Voicemail from telephone service
Storage	Messages are stored in the telephone base.	Messages are stored in a server or system provided by your telephone service.
	Your messages will not be deleted automatically.	Your messages may be automatically deleted after a period of time.
	You have to delete your messages manually.	Contact your telephone service provider for more details.
Method to retrieve messages	When you received new messages, handset displays **XX new messages** and the message window on the telephone base flashes.	When you received new messages, the handset displays ✉ and **New voicemail.**
	To retrieve messages, usually there are two ways: • Press ▶❚❚ on the telephone base; or • Access remotely with an access code.	To retrieve messages, you need an access number and/or a passcode provided by your telephone service provider.

Set your built-in answering system

The answering system can record and store up to 99 messages. Each message can be up to three minutes in length. The total storage capacity for the announcement, messages and memos is approximately 23 minutes. The actual recording time depends on individual message characteristics.

Your answering system allows you to set the voice prompt language and your announcement, to save and delete messages, activate call screening, to set number of rings before pick up, and to access remotely.

Telephone base control key panel:

Turn the answering system on or off

The answering system must be turned on to answer and record messages.

To turn on or off with the telephone base:
- Press ⏻/**ANS ON** on the telephone base to turn the answering system on or off.

To turn on or off with the handset:
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys**, and then press **SELECT**.
3. Scroll to **Answer on/off**, and then press **SELECT**.
4. Scroll to **On** or **Off**, and then press **SELECT** to save. You hear a confirmation tone.

Set voice language

The voice prompt language is preset to English. You can select English or French to be used for the voice prompts in your answering system.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT**.
3. Scroll to **Ans sys setup** and then press **SELECT**.
4. Scroll to **Voice language** and then press **SELECT**.
5. Scroll to choose **English** or **Français**.
6. Press **SELECT** to save and you hear a confirmation tone.

Default announcement

The telephone is preset with a greeting that answers calls with *"Hello, please leave a message after the tone."* You can use this preset announcement, or replace it with your own.

Record your own announcement

The announcement can be up to 90 seconds in length.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT** twice.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **Voice language** and then press **SELECT**.
5. Scroll to choose **Tone: On** or **Tone: Off**.
6. Press **SELECT** to save and you hear a confirmation tone.

Play the announcement
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT** twice.
3. The handset displays **Play [2] Del [3] Rec [7]**, and it announces, *"To play, press 2. To record, press 7."*
4. Press **2** to play the announcement.

Delete the announcement
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT** twice.
3. The handset displays **Play [2] Del [3] Rec [7]**, and it announces, *"To play, press 2. To record, press 7."*
4. Press **3** to delete your own recorded announcement.

Set number of rings

You can set the answering system to answer an incoming call after two, three, four, five or six rings; or toll saver. If you choose toll saver, the answering system answers a call after two rings when you have no new messages, or after four rings when you have no new messages.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **# of rings** then press **SELECT**.
5. Scroll to choose **2, 3, 4, 5, 6** or **Toll saver**.
6. Press **SELECT** to save and you hear a confirmation tone.

Set message alert tone

When the message alert tone is set to on, and there is at least one new message, the telephone base beeps every 10 seconds. The message alert tone is preset to off.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **Msg alert tone** then press **SELECT**.
5. Scroll to choose **Tone: On** or **Tone: Off**.
6. Press **SELECT** to save and you hear a confirmation tone.

Voice guide

This feature is an alternative way for you to do the basic setup of the answering system. You can follow the voice guide to record your own announcement, set the number of rings and the message alert tone.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT**.
3. Scroll to **Voice guide**, and then press **SELECT**. You hear the voice prompt *"Hello! This voice guide will assist you with the basic setup of your answering system."*
4. Setup your answering system by inputting designated numbers as instructed in the voice guide.

Use your built-in answering system

New message indication

When there are new answering system messages, The handset displays **XX new messages** and the message window on the telephone base flashes.

Message playback

To playback messages at the telephone base:
- Press ▶❚❚/**PLAY** when the phone is not in use.

Options during playback:
- Press **VOL+** or **VOL−** to adjust the speaker volume.
- Press ▶/**SKIP** to skip to the next message.
- Press ◀/**REPEAT** to repeat the message currently playing. Press ◀/**REPEAT** twice to listen to the previous message.
- Press **X/DELETE** to delete the playing message. The system advances to the next message.
- Press ❚❚/**STOP** to stop.

To playback messages with a handset:
- Press **MENU** when the phone is not in use, and then press **SELECT**.

Options during playback:
- Press ▼/**VOLUME/▲** to adjust the message playback volume.
- Press **6** to skip to the next message.
- Press **4** to repeat the message. Press **4** twice to listen to the previous message.
- Press **3** to delete the playing message.
- Press **OFF** to stop the playback.
- Press ◀)) to switch between speakerphone and handset earpiece.

Delete all messages

You can only delete old (reviewed) messages. You cannot delete new messages until you review them. You cannot retrieve deleted messages.

To delete all messages with the telephone base:
- Press **X/DELETE** twice when the phone is not in use.

To delete all messages with a handset:
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys**, and then press **SELECT**.
3. Scroll to **Delete all old**, and then press **SELECT**. You hear a confirmation tone.

Remote access

A two-digit security code is required to access the answering system remotely from any touch-tone telephone. The preset code is **19**. You can use this preset code, or set your own.
1. Dial your telephone number from any touch-tone telephone.
2. When the system plays your announcement, enter the two-digit security code.
3. Enter one of the following remote commands:

Command	Description
1	Play all messages.
2	Play new messages.
3	Delete the current message (during playback).
33	Delete all old messages.
4	Repeat the current message (during playback).
5	Stop.
*5	Hear a list of remote commands.
6	Skip to the next message (during playback).
*7	Record a new announcement.
8	End the call.
0	Turn the answering system on or off.

4. Hang up or press **8** to end the call.

Remote access code

You can set your own remote access code from **00** to **99**.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **Remote code**, and then press **SELECT**.
5. Use the dialing keys to enter a two-digit number.
   -OR-
   Scroll to a desired two-digit number.
6. Press **SELECT** to save and you hear a confirmation tone.

Use the built-in answering system and voicemail service

You can use your answering system and voicemail service together by setting your answering system to answer before voicemail service answers as described below. To learn how to program your voicemail settings, contact your telephone service provider.

If you are on a call, or if the answering system is busy recording a message and you receive another call, the second caller can leave a voicemail message.

Set your answering system to answer calls at least two rings earlier than your voicemail service is set to answer. For example, if your voicemail service answers after six rings, set your answering system to answer after four rings. Some voicemail service providers may program the delay before answering calls in seconds instead of rings. In this case, allow six seconds per ring when determining the appropriate setting.

Retrieve voicemail from telephone service

Voicemail is a feature available from most telephone service providers. It may be included with your telephone service, or may be optional. Fees may apply.

Retrieve voicemail

When you received a voicemail, the handset displays ✉ and **New voicemail.** To retrieve, you typically dial an access number provided by your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the voicemail settings and listen to messages.

ℹ️ **NOTE**
- After you have listened to all new voicemail messages, the indicators on the handset turn off automatically.

Set your voicemail number

You can save your access number on each handset for easy access to your voicemail. After you saved the voicemail number, you can press and hold ✉ **1** to retrieve voicemail.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings** and then press **SELECT**.
3. Scroll to **Voicemail #** and then press **SELECT**.
4. Use the dialing keys to enter the voicemail number (up to 30 digits).
5. Press **SELECT** to save.

Turn off the new voicemail indicators

If you have retrieved your voicemail while away from home, and the handset still displays the new voicemail indicators, use this feature to turn off the indicators.

ℹ️ **NOTE**
- This feature turns off the indicators only, it does not delete your voicemail messages.

1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings**, and then press **SELECT**.
3. Scroll to **Clr voicemail**, and then press **SELECT**. You hear a confirmation tone.

Expand your telephone system

You can add new handsets (**CS6909**), cordless headsets (**IS6100**) or speakerphones (**MA3222** or AT&T **TL80133**) to your telephone system. All accessories are sold separately. Your telephone base supports a maximum of five devices.

For more details, refer to the user's manual that comes with your new device.

ECO mode

This power conserving technology reduces power consumption for optimal battery performance. The ECO mode activates automatically whenever the handset is synchronized with the telephone base.

General product care

Taking care of your telephone

Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

Avoid rough treatment

Handle the unit gently. Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water

Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

Electrical storms

Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

Frequently asked questions

Below are the questions most frequently asked about the cordless telephone. If you cannot find the answer to your question, visit our website at www.vtechcanada.com or call **1 (800) 267-7377.**

The answering system does not record messages.	Make sure the answering system is on. When the answering system is on, **ANS ON** should display on the handset and the telephone base.
My telephone does not work at all.	Make sure the telephone base is installed properly, and battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base after use.
The display shows **No line**. I cannot hear the dial tone.	Disconnect the telephone line cord from your telephone and connect it to another telephone. If there is no dial tone on that other telephone either, then the telephone line cord may be defective. Try installing a new telephone line cord.
	If you subscribe to voicemail service, change the number of rings so that your answering system answers before your voicemail service answers. To determine how many rings activate your voicemail service, contact your telephone service provider.
The messages on the answering system are incomplete.	If the memory on the answering system becomes full during a message, the answering system stops recording and disconnects the call.
The display shows **To register HS...** and **...see manual** alternately. The handset does not work at all.	The handset is deregistered from the telephone base.
1. Unplug the telephone base power adapter from the power outlet, and then plug it back in.
2. Place the handset in the telephone base to register it back.

The handset shows **Registered** and you hear a beep when the registration process completes. This process takes about 90 seconds to complete. |
| I accidentally set my LCD language to Spanish or French, and I don't know how to change it back to English. | While the handset is not in use, press **MENU** and then press **K364#** to change the handset LCD language back to English. |

The answering machine memory is full, it does not record messages and some old messages are deleted.

If a caller leaves a very long message, part of it may be lost when the answering system disconnects the call after the preset recording time.

Important safety instructions

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use this product near water such as near a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
5. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
6. Avoid placing the telephone system in places with extreme temperature, direct sunlight, or other electrical devices. Protect your phone from moisture, dust, corrosive liquids and fumes.
7. Slots and openings in the back or bottom of the telephone base and handset are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register. This product should not be placed in any area where proper ventilation is not provided.
8. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
9. Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
10. Never push objects of any kind into this product through the slots in the telephone base or handset because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
11. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the telephone base or handset other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.

---

12. Do not overload wall outlets and extension cords.
13. Unplug this product from the wall outlet and refer servicing to an authorized service facility under the following conditions:
    - When the power supply cord or plug is damaged or frayed.
    - If liquid has been spilled onto the product.
    - If the product has been exposed to rain or water.
    - If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operation instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation.
    - If the product has been dropped and the telephone base and/or handset has been damaged.
    - If the product exhibits a distinct change in performance.
14. Avoid using a telephone (other than cordless) during an electrical storm. There is a remote risk of electric shock from lightning.
15. Do not use the telephone to report a gas leak in the vicinity of the leak. Under certain circumstances, a spark may be created when the adapter is plugged into the power outlet, or when the handset is replaced in its cradle. This is a common event associated with the closing of any electrical circuit. The user should not plug the phone into a power outlet, and should not put a charged handset into the cradle, if the phone is located in an environment containing concentrations of flammable or flame-supporting gases, unless there is adequate ventilation. A spark in such an environment could create a fire or explosion. Such environments might include: medical use of oxygen without adequate ventilation; industrial gases (cleaning solvents; gasoline vapors; etc.); a leak of natural gas; etc.
16. Only put the handset of your telephone next to your ear when it is in normal talk mode.
17. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

SAVE THESE INSTRUCTIONS

Battery

- **CAUTION:** Use Only Supplied Battery.
- Do not dispose of the battery in a fire. Check with local waste management codes for special disposal instructions.
- Do not open or mutilate the battery. Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
- Exercise care in handling batteries in order not to create a short circuit with conductive materials.
- Charge the battery provided with or identified for use with this product only in accordance with the instructions and limitations specified in this manual.

Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless telephones):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless telephones and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

Pacemaker patients
- Should keep wireless telephones at least six inches from the pacemaker.
- Should NOT place wireless telephones directly over the pacemaker, such as in a breast pocket, when it is turned ON.
- Should use the wireless telephone at the ear opposite the pacemaker.

About cordless telephones

- **Privacy:** The same features that make a cordless telephone convenient create some limitations. Telephone calls are transmitted between the telephone base and the cordless handset by radio waves, so there is a possibility that the cordless telephone conversations could be intercepted by radio receiving equipment within range of the cordless handset. For this reason, you should not think of cordless telephone conversations as being as private as those on corded telephones.
- **Electrical power:** The telephone base of this cordless telephone must be connected to a working electrical outlet. The electrical outlet

should not be controlled by a wall switch. Calls cannot be made from the cordless handset if the telephone base is unplugged, switched off or if the electrical power is interrupted.
- **Potential TV interference:** Some cordless telephones operate at frequencies that may cause interference to televisions and VCRs. To minimize or prevent such interference, do not place the telephone base of the cordless telephone near or on top of a TV or VCR. If interference is experienced, moving the cordless telephone farther away from the TV or VCR often reduces or eliminates the interference.
- **Rechargeable batteries:** Exercise care in handling batteries in order not to create a short circuit with conducting material such as rings, bracelets, and keys. The battery or conductor may overheat and cause harm. Observe proper polarity between the battery and the battery charger.
- **Nickel-metal hydride rechargeable batteries:** Dispose of these batteries in a safe manner. Do not burn or puncture the battery. Like other batteries of this type, if burned or punctured, they could release caustic material which could cause injury.

The RBRC® seal

The RBRC® seal on the nickel-metal hydride battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada. The RBRC® program provides a convenient alternative to placing used nickel-metal hydride batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation in RBRC® makes it easy for you to drop off the spent battery at local retailers participating in the RBRC® program or at authorized VTech product service centers. Please call 1 (800) 8 BATTERY® for information on Ni-MH battery recycling and disposal bans/ restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

RBRC® and 1 (800) 8 BATTERY® are registered trademarks of Rechargeable Battery Recycling Corporation.

FCC, ACTA and IC regulations

FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The handset may be safely held against the ear of the user. The telephone base shall be installed and used such that parts of the user's body other than the hands are maintained at a distance of approximately 20 cm (8 inches) or more.

This Class B digital apparatus complies with Canadian requirement:

CAN ICES-3 (B)/NMB-3(B)

FCC Part 68 and ACTA

This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). The label on the back or bottom of this equipment contains, among other things, a product identifier in the format US:AAAEQ##TXXXX. This identifier must be provided to your telephone service provider upon request.

The plug and jack used to connect this equipment to premises wiring and the telephone network must comply with applicable Part 68 rules and technical requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual.

The Ringer Equivalence Number (REN) is used to determine how many devices may connect to your telephone line and still have them ring when you are called. The REN for this product is encoded as the 6th and 7th characters following the US: in the product identifier (e.g., if ## is 03, the REN is 0.3). In most, but not all areas, the sum of all RENs should be five (5.0) or less. For more information, contact your telephone service provider.

This equipment may not be used with Party Lines. If you have specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone service provider or a qualified installer.

If this equipment is malfunctioning, it must be unplugged from the modular jack until the problem has been corrected. Repairs to this telephone equipment can only be made by the manufacturer or its authorized agents. For repair procedures, follow the instructions outlined under the Limited warranty.

If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue your telephone service. The telephone service provider is required to notify you before interrupting service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone

service provider may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone service provider is required to notify you if such changes are planned.

If this product is equipped with a corded or cordless handset, it is hearing aid compatible.

If this product has memory dialing locations, you may choose to store emergency telephone numbers (e.g., police, fire, medical) in these locations. If you do store or test emergency numbers, please:

Remain on the line and briefly explain the reason for the call before hanging up.

Perform such activities in off-peak hours, such as early morning or late evening.

Industry Canada

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Privacy of communications may not be ensured when using this phone.

Limited warranty

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy.

VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

What is not covered by this limited warranty?

This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
4. Product to the extent that the problem is caused by use with non-VTech accessories; or
5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
7. Product returned without a valid proof of purchase (see item 2 on the next page); or
8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service?

To obtain warranty service, please visit our website at www.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no

risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

What must you return with the Product to get warranty service?

1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
3. Provide your name, complete and correct mailing address, and telephone number.

Other limitations

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.

Technical specifications

Frequency control	Crystal controlled PLL synthesizer
Transmit frequency	Handset: 1921.536-1928.448 MHz
Telephone base: 1921.536-1928.448 MHz
Channels	5
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environment conditions at the time of use.
Power requirements	Handset: 2.4V Ni-MH battery
Telephone base: 6V DC @ 400mA
Charger: 6V AC @ 300mA
Memory	Phonebook:
50 memory locations; up to 30 digits and 15 characters
Caller ID log:
30 memory locations; up to 24 digits and 15 characters
