Connect

You can choose to connect the telephone base for desktop usage or wall mounting. **⊘**NOTE

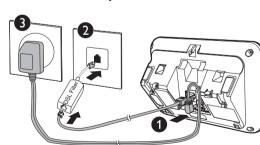

Use only the power adapters supplied with this

product.

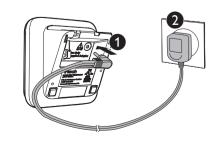

• If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a DSL filter (not included) between the telephone line cord and telephone wall jack. Contact your DSL service

Connect the telephone base

Connect the charger

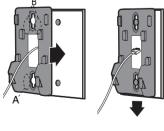

Mount the telephone base

The telephone comes ready for tabletop use. If you have already installed the telephone for tabletop use, unplug the telephone line cord from the telephone wall jack, and unplug the telephone base power adapter from the wall outlet before mounting your telephone on a wall. Follow the steps below to mount your telephone on a wall.

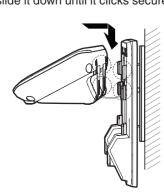

1. Route the telephone line cord through the rectangular hole on the wall mount bracket. Then plug the two ends of the telephone line cord into the telephone base and the wall outlet as shown.

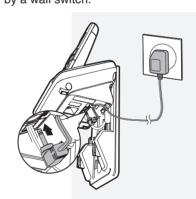

Align the holes on the bracket with the standard wall plate and slide the bracket down until it clicks securely in place.

3. Alian the grooves on the telephone base with the tabs on the wall mount bracket, and then slide it down until it clicks securely in place.

4. Connect the power adapter to the telephone base and an electrical outlet not controlled by a wall switch.

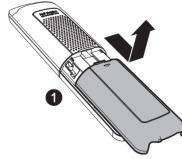

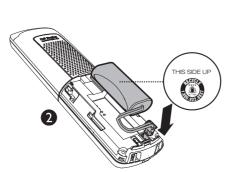

Install and charge the battery

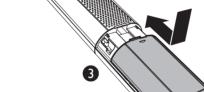

Install the battery

· Use only supplied battery.

indicator while the phone is not in use. • Press to return to the previous menu; or

press and hold to return to idle mode, without

options when reviewing a caller ID log entry.

· Press to start an intercom conversation or transfer a call (for multi-handset models only)

Set date and time

- 1. Use the dialing keys (0-9) to enter the month (MM), date (DD) and year (YY).
- 2. Use the dialing keys (0-9) to enter the hour (HH) and minute (MM). Then press ▼ or ▲
- Press SELECT to save.

Check for dial tone:

Press TALK. If you hear a dial tone, the installation is successful

If you do not hear a dial tone:

- Make sure the installation procedures described above are properly done.
- changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/ VoIP service provider for more information

Operating range

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press TALK. Move closer to the telephone base, and then press TALK to answer the call. If the handset moves out of range during a telephone conversation, there closer to the telephone base.

Using the handset menu

numbers or names

- 1. Press **MENU** when the phone is not in use. 2. Press ▼ or ▲ until the screen displays the

Join a call in progress You can use up to two system handsets at a time on a home line call. You can buy additional expansion handsets (CS6709) for this telephone base. You can register up to five handsets to the

- telephone base. When a handset is on a home call, press
- or \(\bigsir \) on another handset to join the call. Press OFF to exit the call. The call continues until all handsets hang up.

Transfer a call

While on an outside call, you can transfer the call from one handset to another.

- 1. Press **MENU** on your handset during a call.
- 2. Scroll to Transfer, and then press SELECT
- 3. Use the dialing keys to enter a destination handset number.
- 4. To answer the intercom call, press TALK, ■), or any dialing key on the destination handset.

Intercom

Use the intercom features for conversations between two devices.

- 1. Press **INT** on your handset when not in use.
- 2. Use the dialing keys to enter a destination handset number
- 3. To answer the intercom call, press TALK, ■), or any dialing key on the destination handset. 4. To end the intercom call, press **OFF** or place the handset back in the telephone base or

Transfer a call using intercom

charger

While on an outside call, you can use the intercom feature to transfer the call from one handset to another.

- 1. Press **INT** on your handset during a call.
- 2. The current call is put on hold. Use the dialing keys to enter a destination handset number

- 3. To answer the intercom call, press TALK, ■), or any dialing key on the destination handset. You can now have a private conservation before transferring the call.
- 4. From this intercom call, you have the following options
- You can let the destination handset join you on the outside call in a three-way conversation. Press and hold **INT** on the originating handset.
- You can transfer the call. Press OFF, or place your handset back in the telephone hase or charger. Your handset displays **Transferred**. The destination handset is then connected to the outside call.
- You can press **INT** to switch between the outside call (Outside call displays) and the intercom call (Intercom displays).
- The destination handset can end the intercom call by pressing **OFF**, or by placing the handset back in the telephone base or charger. The outside call continues with the original system handset.

Answer an incoming call during an intercom call

If you receive an incoming call during an intercom call, there is an alert tone.

- To answer a call, press TALK. The intercom call
- ends automatically To end the intercom call without answering the outside call, press **OFF**. The intercom call ends and the telephone continues to ring.

Redial list
