What's in the box

Your product package contains the following items. Save your sales receipt and original packaging in the event warranty service is necessary.
1 set for CS6859
2 sets for CS6859-2;
3 sets for CS6859-3
4 sets for CS6859-4
5 sets for CS6859-5

1 set for CS6859-2
2 sets for CS6859-3
3 sets for CS6859-4

Quick start guide

Abridged user's manual

Important Safety Instructions
Handset overview

1 – Handset earpiece
2 – LCD display
3 – MENU/SELECT
  • Show the menu.
  • While in a menu, press to select an item, or save an entry or setting.
4 – OFF/CANCEL
  • Hang up a call.
  • Silence the ringer temporarily while the handset is ringing.
  • Press and hold to erase the missed call indicator while the phone is not in use.
  • Press to return to the previous menu; or press and hold to return to idle mode, without making changes.
5 – #
  • Press repeatedly to show other dialing options when reviewing a caller ID log entry.
6 – INT
  • Press to start an intercom conversation or transfer a call (for multi-handset models only).
7 – Microphone
8 – ◄»
  • Make or answer a call using the handset speakerphone.
  • During a call, press to switch between the speakerphone and the handset.
9 – MUTE/DELETE
  • Mute the microphone during a call.
  • Delete digits or characters while using the dialing keys.
  • Silence the ringer temporarily while the handset is ringing.
10 – TONE ✳
  • While you have set the dial mode to pulse and on a call, press to switch to tone dialing temporarily.
11 – OPER 0
  • Press to add a space when entering names.
12 – 1
  • Press repeatedly to add or remove 1 in front of the caller ID log entry before dialing or saving it to the directory.
 • Press and hold to set or dial your voicemail number.
13 – TALK/FLASH
  • Make or answer a home call.
  • Answer an incoming home call when you hear a call waiting alert.
14 – REDIAL/PAUSE
  • Press repeatedly to review the redial list.
  • Press and hold to insert a dialing pause while entering a number.
15 – VOLUME/▲/🔔
  • Review the directory when the phone is not in use.
  • Increase the listening volume during a call.
  • Scroll up while in a menu, or in the directory, caller ID log, or redial list.
  • Move the cursor to the right when entering numbers or names.
  VOLUME/▼/CID
  • Review the caller ID log when the phone is not in use.
  • Decrease the listening volume during a call.
  • Scroll down while in a menu, or in the directory, caller ID log, or redial list.
  • Move the cursor to the left when entering numbers or names.
16 – CHARGE light
  • On when the handset is charging.

Telephone base overview
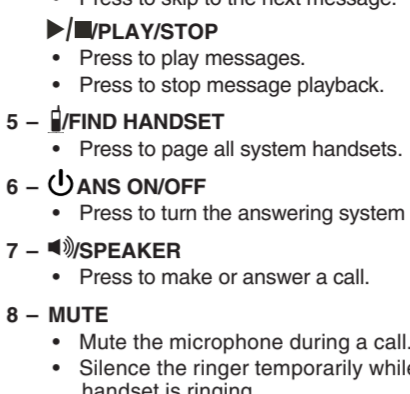

1 – LCD display
2 – IN USE light
  • Flashes when there is an incoming call, or another telephone sharing the same line is in use.
  • On when the handset is in use.

Display icons overview

Handset icons

Icon	Description
📱	The battery icon flashes when the battery is low and needs charging.
▭▭▭▭	The battery icon animates when the battery is charging.
📱	The battery icon becomes solid when the battery is fully charged.
🔕	The handset ringer is off.
✉	There are new voicemail received from your telephone service provider.
ECO	The ECO mode activates automatically to reduce power consumption when the handset is within range from the telephone base.
NEW	There are new caller ID log entries.

Telephone base icons

Icon	Description
🔕	The telephone base ringer is turned off.
✉	There are new voicemail received from the telephone service provider.
MSG # 1	The message number currently playing, or the total number of messages recorded.
NEW	The caller ID log entry you are reviewing is new. The message you are listening is new.

Lights overview

Handset lights

Light	Description
◄»	On when the handset speakerphone is in use.
CHARGE	On when the handset is charging in the telephone base or handset charger.

Telephone base lights

| Light	Description
IN USE	On when the telephone line is in use. On when you are registering a handset. Flashes quickly when there is an incoming call. Flashes when another telephone sharing the same line is in use. Flashes when you are deregistering all handsets.
⏻ ANS ON/OFF	On when the answering system is turned on.
MUTE	On when the mute function is turned on during a call.
►/■PLAY/STOP	Flashes when there are new messages or memos in the answering system.
◄»/SPEAKER	On when the telephone base speakerphone is in use.

Connect

You can choose to connect the telephone base for desktop usage or wall mounting.

NOTE
• Use only the adapters provided.
• Make sure the electrical outlets are not controlled by wall switches.
• The adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

TIP
• If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a **DSL filter** (not included) between the telephone line cord and telephone wall jack. Contact your DSL service provider for more information.

Connect the telephone base

Connect the charger

Mount the telephone base

1. Unplug the telephone line cord (or the DSL filter) from the telephone wall jack. Unplug the power adapter from the electrical outlet. Slide the wall mount bracket up and remove it from the wall mount plate.
2. Press down on the tabs on the wall mount bracket on the telephone base to release it from tabletop orientation. Rotate the wall mount bracket down to wall mount position and then push it into the telephone base until it clicks into place.
3. Plug the telephone line cord (or DSL filter) into the wall jack. Align the holes on the back of the telephone base with the standard wall plate. Slide the bracket down until it clicks securely in place. Connect the power adapter to the telephone base and an electrical outlet not controlled by a wall switch.
4. Slide the telephone base down until it clicks securely in place. Bundle the telephone line cord and power adapter cord neatly with twist ties if necessary.
Install and charge the battery

Install the battery
Install the battery as shown below.

NOTES
• Use only the adapters provided.
• If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Charge the battery
Place the handset in the telephone base or the charger to charge.

Once you have installed the battery, the handset LCD display indicates the battery status (see the table below).

NOTES
• For best performance, keep the handset in the telephone base or charger when not in use.
• The battery is fully charged after 12 hours of continuous charging.

Battery indicators	Battery status	Action
The screen is blank, or shows **Put in charger** and 📱 flashes.	The battery has no charge or very little charge. The handset cannot be used.	Charge without interruption (at least 30 minutes).
The screen shows **Low battery** and 📱 flashes.	The battery has enough charge to be used for a short time.	Charge without interruption (at least 30 minutes).
The screen shows **HANDSET X**.	The battery is charged.	To keep the battery charged, place it in the telephone base or charger when not in use.

Before use

After you install your telephone or power returns following a power outage, the handset or telephone will prompt you to set the date and time.

Set date and time

NOTE
• Make sure you set the date and time including the year correctly; otherwise the answering system does not announce the correct day of the week for your recorded messages time stamp.

1. Use the dialing keys (0-9) to enter the month (MM), date (DD) and year (YY). Then press SELECT.
2. Use the dialing keys (0-9) to enter the hour (HH) and minute (MM). Then press ▼ or ▲ to choose AM or PM.
3. Press SELECT to save.

Check for dial tone:
Press TALK. If you hear a dial tone, the installation is successful.

If you do not hear a dial tone:
• Make sure the installation procedures described above are properly done.
• It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/VoIP service provider for more information.

Operating range
This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance - which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays **Out of range or no pwr at base**.

If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press TALK. Move closer to the telephone base, and then press TALK to answer the call. If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

Using the menu

1. Press MENU when the handset or telephone base is not in use.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press SELECT to enter that menu.

• To return to the previous menu, press CANCEL.
• To return to idle mode, press and hold CANCEL.

Configure your telephone

Set language
The LCD language is preset to English. You can select English, French or Spanish to be used in all screen displays.
1. Press MENU when the handset is not in use.
2. Scroll to Settings, and then press SELECT twice.
3. Scroll to choose English, Français or Español, and then press SELECT.
4. Press SELECT again to save.

Set date and time

NOTE
• Make sure you set the date and time including the year correctly; otherwise the answering system does not announce the correct day of the week for your recorded messages time stamp.

1. Press MENU when the handset is not in use.
2. Scroll to Set date/time, and then press SELECT.
3. Use the dialing keys (0-9) to enter the month (MM), date (DD) and year (YY). Then press SELECT.
4. Use the dialing keys (0-9) to enter the hour (HH) and minute (MM). Then press ▼ or ▲ to choose AM or PM.
5. Press SELECT to save.

Temporary tone dialing
If you have pulse (rotary) service only, you can switch from pulse to tone dialing temporarily during a call.
1. During a call, press TONE ✳.
2. Use the dialing keys to enter the relevant number. The telephone sends touch-tone signals. It automatically returns to pulse dialing mode after you end the call.

Telephone operation
Handset control key panel:
Make a call
• Press TALK or ◄», and then dial the telephone number.

Answer a call
• Press TALK, ◄», or any dialing key.

End a call
• Press OFF on the handset, or put the handset to the base or charger.

Speakerphone
• During a call, press ◄» on the handset to switch between speakerphone and normal handset use.

Volume
• During a call, press ▼/VOLUME/▲ on the handset to adjust the listening volume.

Mute
The mute function allows you to hear the other party but the other party cannot hear you.
1. During a call, press MUTE on the handset or telephone base. The screen displays Muted.
2. Press MUTE again to resume the conversation. The screen displays Microphone ON.

Call waiting
When you subscribe to call waiting service from your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.
• Press FLASH to put the current call on hold and take the new call.
• Press FLASH to switch back and forth between calls.

Find handset
Use this feature to find all system handsets.
To start paging:
• Press 📟/FIND HANDSET on the telephone base. All idle handsets ring and display ** Paging **.
To end paging:
• Press 📟/FIND HANDSET again on the telephone base.

-OR-
• Press TALK, ◄», OFF, or any dialing key on the handset.
-OR-
• Place the handset in the telephone base or charger.

NOTE
Do not press and hold 📟/FIND HANDSET for more than four seconds. It may lead to handset deregistration.

Join a call in progress
You can use up to two system handsets at a time on a home line call. You can buy additional expansion handsets (CS6709) for this telephone base. You can register up to five handsets to the telephone base.
• When a handset is on a home call, press TALK or ◄» on another handset to join the call.
• Press OFF to exit the call. The call continues until all handsets hang up.

Transfer a call
While on an outside call, you can transfer the call from one handset to another.
1. Press MENU on your handset during a call.
2. Scroll to Transfer, and then press SELECT.
3. Use the dialing keys to enter a destination handset number.
4. To answer the intercom call, press TALK, ◄», or any dialing key on the destination handset, or press ◄»/SPEAKER, INT or any dialing key (0-9, QUIET #, or TONE ✳) on the telephone base.

Intercom
Use the intercom features for conversations between two devices.
1. Press INT on your handset or telephone base when not in use.
2. Use the dialing keys to enter a destination device number.
3. To answer the intercom call, press TALK, ◄», INT or any dialing key on the destination handset; press ◄»/SPEAKER, INT or any dialing key (0-9, QUIET #, or TONE ✳) on the telephone base.
4. To end the intercom call, press OFF or place the handset in the telephone base or charger.

Transfer a call using intercom
While on an outside call, you can use the intercom feature to transfer the call from one handset to another.
1. Press INT on your handset or telephone base during a call.
2. The current call is put on hold. Use the dialing keys to enter a destination handset number.
3. To answer the intercom call, press TALK, ◄», INT or any dialing key on the destination handset; or press ◄»/SPEAKER, INT or any dialing key (0-9, QUIET #, or TONE ✳) on the telephone base.
4. From this intercom call, you have the following options:
  • You can let the destination handset join you on the outside call in a three-way conversation. Press and hold INT on the originating handset.
  • You can transfer the call. Press OFF, or place your handset back in the telephone base or charger. Your handset displays Transferred. The destination handset is then connected to the outside call.
  • You can press INT to switch between the outside call (Outside call displays) and the intercom call (Intercom displays).
  • The destination handset can end the intercom call by pressing OFF, or by placing the handset back in the telephone base or charger. The outside call continues with the original handset.

Answer an incoming call during an intercom call
If you receive an incoming call during an intercom call, there is an alert tone.
• To answer a call, press TALK. The intercom call ends automatically.
• To end the intercom call without answering the outside call, press OFF. The intercom call ends and the telephone continues to ring.

Redial list

Each handset stores the last 10 telephone numbers dialed. When there are already 10 entries, the oldest entry is deleted to make room for the new entry.

Review the redial list
1. Press **REDIAL** when the handset is not in use.
2. Press ▼, ▲, or **REDIAL** repeatedly until the desired entry displays.

Dial a redial list entry
- Press ↰ or ◁) to dial.

Delete a redial list entry
When the desired redial entry displays, press **DELETE**.

Directory

The phonebook can store up to 50 entries, which are shared by all handsets. Each entry may consist of a telephone number up to 30 digits, and a name up to 15 characters.

Add a directory entry
1. Press **MENU** when the phone is not in use.
2. Scroll to **Directory** then press **SELECT**.
3. Press **SELECT** again to choose **Add contact**.
4. Enter the number.
   - Use the dialing keys to enter the number (up to 30 digits).
5. Press **SELECT** to move to the name.
6. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.
7. Press **SELECT** to save.

While entering numbers and names, you can:
- Press **DELETE** to erase a digit or character.
- Press and hold **DELETE** to erase the entire entry.
- Press ▼ or ▲ to move the cursor to the left or right.
- Press and hold **PAUSE** to insert a dialing pause (for entering phone numbers only).
- Press **0** to add a space (for entering names only).
- Press **TONE ✱** to add ✱ (✱ appears) or **QUIET #** to add # (# appears) (for entering phone numbers only).

Review the directory

Entries are sorted alphabetically.
1. Press ▱ when the phone is not in use.
2. Scroll to browse through the directory, or use the dialing keys to start a name search (you can enter up to 3 characters for the search).
3. When the desired entry appears, press ↰ or ◁) to dial.

Dial a directory entry
- When the desired entry appears, press ↰ or ◁) to dial.

Edit a directory entry
1. When the desired entry displays, press **SELECT**.
2. Use the dialing keys to edit the number, and then press **SELECT**.
3. Use the dialing keys to edit the name, and then press **SELECT** to save.

Delete a directory entry:
1. When the desired entry displays, press **DELETE**.
2. When the screen displays **Delete contact?**, press **SELECT**.

Speed dial

You can copy up to 9 directory entries into the speed dial locations (0 and 2-9) so that you can dial these numbers using fewer keys than usual.

The speed dial memory locations are stored in the telephone base and are shared by all handsets. Changes made to the speed dial entries on one handset apply to all.

Assign a speed dial entry
1. Press **MENU** when the phone is not in use.
2. Scroll to **Directory**, then press **SELECT**.
3. Scroll to **Speed dial**, then press **SELECT**.
4. Press ▼ or ▲ or the dialing keys (0 or 2-9) to choose the desired speed dial location.
5. Press **SELECT**. The screen displays **Copy from DIR...** and then the first entry in the directory.
6. Scroll to browse to the desired entry.
   -OR-
   Use the alphabetical search to find the desired entry.

Delete a speed dial entry
1. Press **MENU** when the phone is not in use.
2. Scroll to **Directory**, then press **SELECT**.
3. Scroll to **Speed dial**, then press **SELECT**.
4. Press ▼ or ▲, or use the dialing keys to choose the desired speed dial location, then press **DELETE**. The screen displays **Clear SD #X?**
5. Press **SELECT** to confirm. You hear a confirmation tone.

(center-top continued)

7. Press **SELECT** to save. You hear a confirmation. The name (up to 12 characters) appears in the selected speed dial location.

📝 **NOTE**
Deleting the speed dial entries does not affect the entries in the directory.

Caller ID

If you subscribe to caller ID service, information about each caller appears after the first or second ring. If you answer a call before the caller information appears on the screen, it will not be saved in the caller ID log.

The caller ID log stores up to 50 entries. Each entry has up to 24 digits for the phone number and 15 characters for the name.

If the telephone number has more that 15 digits, only the last 15 digits appear. If the name has more than 15 characters, only the first 15 characters are shown and saved in the caller ID log.

Review a caller ID log entry
1. Press **CID** when the phone is not in use.
2. Scroll to browse through the caller ID log. When the desired entry appears:
   - Press # repeatedly to show different dialing options.
   - Press 1 repeatedly if you need to add or remove 1 in front of the phone number.
3. Press ↰ or ◁) to dial the displayed number.

Dial a caller ID log entry
- When the desired entry appears, press ↰ or ◁) to dial.

Save a caller ID log entry to the directory
1. When the desired caller ID log entry displays, press **SELECT**.
2. Scroll to **To Directory** then press **SELECT**.
3. Use the dialing keys to modify the number, and then press **SELECT**.
4. Use the dialing keys to modify the name, and then press **SELECT** to save.

Delete a caller ID log entry
- When the desired caller ID log entry displays, press **DELETE**.

Delete all caller ID log entries
- Press **MENU** when the phone is not in use. Scroll to **Caller ID log** and then press **SELECT**. Scroll to **Del all calls** and then press **SELECT** twice.

Sound settings

Key tone
You can choose from different ringer tones.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings**, and then press **SELECT**.
3. Scroll to choose **Key tone**, and then press **SELECT**.
4. Scroll to choose **On** or **Off**, and then press **SELECT** to save.

Ringer tone
You can choose from different ringer tones.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Ringers**, and then press **SELECT**.
3. Scroll to choose **Ringer tone**, and then press **SELECT**.
4. Scroll to sample each ringer tone, and then press **SELECT** to save.

📝 **NOTE**
If you turn off the ringer volume, you will not hear ringer tone samples.

Ringer volume
You can adjust the ringer volume level, or turn the ringer off.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Ringers**, and then press **SELECT**.
3. Scroll to choose **Ringer volume** or **Cell volume**, and then press **SELECT**.
4. Scroll to adjust the volume, and then press **SELECT** to save.

📝 **NOTE**
If the handset ringer volume is set to off, that handset is silenced for all incoming calls except paging tone.

Ringer volume (telephone base)
You can adjust the telephone base volume level by pressing ▼VOL- or ▲VOL+ on the top of the telephone base when idle.

Temporary ringer silencing
When the telephone is ringing, you can temporarily silence the ringer of the handset without disconnecting the call. The next call rings normally at the preset volume.
- Press **OFF** or **MUTE** on the handset. The handset displays ⌖ and **Ringer muted** briefly.

Quiet mode

You can turn on the quiet mode for a period of time. During this period, all tones (except paging tone) and call screening are muted. When you turn on the quiet mode, the answering system turns on automatically.
1. Press and hold **QUIET #** on the handset or telephone base when idle.
2. Use the dialing keys (0-9) to enter the duration, and then press **SELECT** to save.
- To turn off the quiet mode, press and hold **QUIET #** on the handset or telephone base when idle.

About answering system and voicemail service

For message recording, your telephone has a built-in answering system, and it does support voicemail service offered by your telephone service provider (subscription is required, and fee may apply).
The main differences between them are as follows:

Category	Built-in answering system	Voicemail from telephone service
Storage	Messages are stored in the telephone base.	Messages are stored in a server or system provided by your telephone service.
	Your messages will not be deleted automatically. You have to delete your messages manually.	Your messages may be automatically deleted after a period of time. Contact your telephone service provider for more details.
Method to retrieve messages	When you received new messages, handset displays **XX new messages** and the message window on the telephone base flashes.	When you received new messages, the handset displays 🖂 and **New voicemail.**
	To retrieve messages, usually there are two ways: • Press a button on the telephone base; or • Access remotely with an access code.	To retrieve messages, you need an access number and/or an access code provided by your telephone service provider.
Set your built-in answering system

Your answering system has various features, read below for the radio settings.

The answering system can record and store up to 99 messages. Each message can be up to three minutes in length. The total storage capacity for the announcement, messages and memos is approximately 14 minutes. The actual recording time depends on individual message characteristics.

Your answering system allows you to set your announcement, to save and delete messages, activate call screening, to set number of rings before pick up, to access remotely, and to control the recording time.

Turn the answering system on or off
The answering system must be turned on to answer and record messages.

To turn on or off with the telephone base:
- Press ⏚/ANS ON on the telephone base to turn the built-in answering system on or off.

To turn on or off with the handset:
1. Press **MENU** when the phone is not in use.
2. Scroll to highlight **Answering sys**, and then press **SELECT**.
3. Scroll to highlight **Answer on/off**, and then press **SELECT**.
4. Scroll to highlight **Answer: On** or **Answer: Off**, and then press **SELECT** to save. You hear a confirmation tone.

Telephone base control key panel:

Default announcement

The telephone is preset with a greeting that answers calls with "Hello, please leave a message after the tone." You can use this preset announcement, or replace it with your own.

Record your own announcement
The announcement can be up to 90 seconds in length.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT**.
3. The handset announces, *"To play, press 2. To record, press 7."*
4. Press 7 to record. The handset announces, *"Record after the tone. Press STOP when you are done."* After the tone, speak towards the handset microphone. Then, press **5** when done.

Play the announcement
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT** twice.
3. The handset announces, *"To play, press 2. To record, press 7."*
4. Press 2 to play the announcement.

Delete the announcement
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** and then press **SELECT** twice.
3. The handset announces, *"To play, press 2. To record, press 7."*
4. Press 3 to delete your own recorded announcement.

Set number of rings
You can set the answering system to answer an incoming call after 2, 3, 4, 5 or 6 rings; or toll saver. If you choose toll saver, the answering system answers a call after 2 rings when you have new messages, or after 4 rings when you have no new messages.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **# of rings** then press **SELECT**.
5. Scroll to choose 2, 3, 4, 5, 6 or Toll saver.
6. Press **SELECT** to save and you hear a confirmation tone.

Message alert tone

When the message alert tone is set to on, and there is at least one new message, the telephone base beeps every 10 seconds. The message alert tone is preset to off.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **Msg alert tone** then press **SELECT**.
5. Scroll to choose **Tone: On** or **Tone: Off**.
6. Press **SELECT** to save and you hear a confirmation tone.

Recording time
You can set the recording time limit for each incoming message.
1. Press **MENU** when the phone is not in use.
2. Scroll to **Answering sys** then press **SELECT**.
3. Scroll to **Ans sys setup** then press **SELECT**.
4. Scroll to **Recording time** then press **SELECT**.
5. Scroll to choose **3 minutes**, **2 minutes** or **1 minute**.
6. Press **SELECT** to save and you hear a confirmation tone.

Use your built-in answering system

4. Scroll to **Remote code**, and then press **SELECT**.
5. Use the dialing keys to enter a two-digit number.
   -OR-
   Scroll to a desired two-digit number.
6. Press **SELECT** to save and you hear a confirmation tone.

Use the built-in answering system and voicemail service

You can use your answering system and voicemail service together by setting your answering system to answer before voicemail service answers as described below. To learn how to program your voicemail settings, contact your telephone service provider.

If you are on a call, or if the answering system is busy recording a message and you receive another call, the second caller can leave a voicemail message.

Set your answering system to answer calls at least two rings earlier than your voicemail service is set to answer. For example, if your voicemail service answers after six rings, set your answering system to answer four or fewer rings. Some voicemail service providers may program the delay before answering calls in seconds instead of rings. In this case, allow six seconds per ring when determining the appropriate setting.

Expand your telephone system

Add and register a handset
You can add new cordless handsets (CS6709), DECT 6.0 to your telephone system (purchased separately).

Your telephone system supports a maximum of five handsets.

Additional handsets registered to the telephone system are assigned numbers in the sequential order. Register each handset with the telephone base before use.

When first purchased and properly charged, each expansion handset shows **To register HS...** and **...see manual** alternately. Charge the handset before registering it to the telephone base.

To register a handset:
- Place the new or non-registered handset in the telephone base. After about 10 seconds, the handset shows **Registering...**

Retrieve voicemail from telephone service

Voicemail is a feature available from most telephone service providers. It may be included with your telephone service, or may be optional. Fees may apply.

Retrieve voicemail
When you received a voicemail, the handset displays 🖂 and **New voicemail**. To retrieve, you typically dial an access number provided by your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the voicemail settings and listen to messages.

Turn off the new voicemail indicators
If you have retrieved your voicemail while away from home, and the handset still displays the new voicemail indicators, use this feature to turn off the indicators.

📝 **NOTE**
This feature turns off the indicators only, it does not delete your voicemail messages.
1. Press **MENU** when the handset is not in use.
2. Scroll to **Settings**, and then press **SELECT**.
3. Scroll to **Clr voicemail**, and then press **SELECT**.

Deregister all devices
To replace a handset or reassign the designated handset number of a registered handset, you must deregister all handsets and then individually register each handset.

To deregister all handsets:
1. Press and hold ⌖/FIND HANDSET on the telephone base for about 10 seconds until the IN USE light on the telephone base flashes.
2. Immediately press ⌖/FIND HANDSET again.

All handsets show **To register HS...** and **...see manual** alternately when the deregistration process completes. The deregistration process takes about 10 seconds to complete.

ECO mode
This power conserving technology reduces power consumption for optimal battery performance. The ECO mode activates automatically whenever the handset is synchronized with the telephone base.

General product care

Taking care of your telephone
Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

Avoid rough treatment
Place the handset down gently. Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water
Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

(bottom — electrical / FAQ columns)

Electrical storms
Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone
Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

Do not place the handset in the charger.

The handset shows **Registered** and you hear a beep when the registration process completes. The registration process takes about 90 seconds to complete.

Frequently asked questions

Below are the questions most frequently asked about the cordless telephone. If you cannot find the answer to your question, visit our website at **www.vtechphones.com** or call **1 (800) 595-9511** for customer service. In Canada, visit **www.vtechcanada.com** or call **1 (800) 267-7377**.

My telephone does not work at all.	Make sure the telephone base is installed properly, and battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base after use.
The display shows **No line**. I cannot hear the dial tone.	Make sure the telephone base is on. When the answering system is on, **ANS ON** should display on the handset and the telephone base.
	When the answering machine memory is full, it does not record new messages until some old messages are deleted.
	If you subscribe to voicemail service, change the number of rings so that your answering system answers before your voicemail service answers. To determine how many rings activate your voicemail service, contact your telephone service provider.
The answering system does not record messages.	Disconnect the telephone line cord from your telephone and connect it to another telephone. If there is no dial tone on that other telephone either, then the telephone line cord may be defective. Try installing a new telephone line cord. If changing telephone line cord does not help, the wall jack (or the wiring to this wall jack) may be defective. Contact your telephone service provider.
The answering system does not announce the correct day of the week for recorded messages time stamp.	Make sure you have set the date and time. See **Configure your telephone** section.
The messages on the answering system are incomplete.	If a caller leaves a very long message, part of it may be lost when the answering system disconnects the call after the preset recording time.
	While the memory on the answering system becomes full during a message, the answering system stops recording and disconnects the call.
I accidentally set my LCD language to Spanish or French, and I don't know how to change it back to English.	While the handset is not in use, press **MENU** and then enter **x364#** to change the handset LCD language back to English.
	You may be using a new cable or VoIP service, and the existing telephone jacks in your home may no longer work. Contact your service provider for solutions.

Limited warranty

What does this limited warranty cover?
The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

How long is the limited warranty period?
The limited warranty period for the Product extends to the holder of a valid proof of purchase for ONE (1) YEAR from the date of purchase.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?
During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

How do you get warranty service?
NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

(warranty continued)

If the limited warranty period for the Product extends to ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

What is not covered by this limited warranty?
This limited warranty does not cover:
1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
4. Product to the extent that the problem is caused by use with non-VTech accessories; or
5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
7. Product returned without a valid proof of purchase (see item 2 on the next page); or
8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the Unit.

incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product along with a description of the malfunction or difficulty; and
2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
3. Provide your name, complete and correct mailing address, and telephone number.

Other limitations
This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
