

ErisTerminal™ SIP Phones

Make room for more business

Tired of managing multiple phone lines, bills and costs? Add VTech ErisTerminal SIP phones to your network to unify all your communications—voice, data and Internet. From feature-rich desktop phones to cordless options, you can easily outfit your entire business.

VSP725 Entry-Level Deskset

VSP735 Feature Deskset

VSP600 SIP DECT Base Station and Cordless Handset

VSP601 SIP DECT Cordless Handset

VSP505 SIP DECT Cordless Headset

More for your money

ErisTerminal is a cost-effective alternative to traditional analog and digital phone systems. Cut installation costs with Power over Ethernet (PoE), dual Ethernet ports and auto-provisioning. And relax knowing you've made the right choice with products that are competitively priced, come with U.S. call-center support and feature two-year standard warranties.

More ways to connect

Compatibility with hosted and open-source PBX platforms means you're always open for business.* That takes the hassle and cost out of managing the back-end infrastructure on your own.

More mobility

Competing priorities? Our VSP600 SIP DECT base station/cordless handset comes with Orbitlink Wireless Technology™, so you can keep your customers on the line even when you're on the move in your office. Add phones anywhere there's an Ethernet drop and then program each with a unique number—an affordable way to expand call coverage. For even more mobility, add the VSP505 SIP DECT cordless headset to the mix.

* Compatible with Broadsoft® and Asterisk-based platforms.

Full of features

Enjoy all the PBX features and functionality you're used to—and more.

- **Power over Ethernet (PoE):** With PoE support, you can locate the phones anywhere that's convenient—no AC outlets or complicated wiring required.
- **HD Audio:** Calls have never sounded so rich and life-like with HD Audio G.722 wideband codec support.
- **Scalability:** Expand the system as your business grows. Each DECT SIP cordless base station supports up to six handsets.
- **Dual Ethernet ports:** Do more with dual Ethernet ports. Connect your desktop computer or laptop to the phone—no need for extra cabling.
- **Multi-line support:** Manage multiple lines and calls simultaneously with advanced call handling features.
- **Programmable buttons**
Ensure every call is handled right the first time with customizable feature buttons—from shared call appearances (SCA) to busy lamp fields (BLF).
- **The VTech advantage**
When you choose VTech for your business, you're buying more than a phone system. You're partnering with the #1 manufacturer of cordless phones in the world, with over 20 years of experience and 41 million handsets shipped in 2013.
