DECT 6.0 cordless telephone

Register online to get an additional 3-month warranty!
Go to www.vtechphones.com to register your product for enhanced warranty support and latest VTech product news.

The ENERGY STAR® program (www.energystar.gov) recognizes and encourages the use of products that save energy and help protect our environment. We are proud to mark this product with the ENERGY STAR® label indicating it meets the latest energy efficiency guidelines.

Telephones identified with this logo have reduced noise and interference when used with most T-coil equipped hearing aids and cochlear implants. The TIA-1083 Compliant Logo is a trademark of the Telecommunications Industry Association. Used under license.

Introduction
To protect our environment and conserve natural resources, this user’s manual provides you with the basic installation and use instructions. A limited set of features are described in abbreviated form.

Please refer to the online User’s manual for a full set of installation and operation instructions at www.vtechphones.com. Before using this VTech product, please read Important safety instructions on page 11 of this user’s manual.

Parts checklist
Your telephone package contains the following items. Save your sales receipt and original packaging in the event warranty service is necessary.

- Telephone line cord
- Battery compartment cover (1 for CS6419, CS6419-15 and CS6419-16, and 2 for CS6419-2)
- Battery (1 for CS6419, CS6419-15 and CS6419-16, and 2 for CS6419-2)
- Telephone base power adapter
- Handset (1 for CS6419, CS6419-15 and CS6419-16, and 2 for CS6419-2)
- Telephone base
- Charger and charger adapter (1 for CS6419-2)
- Wall mount bracket
- User’s manual

Telephone base and charger installation
Install the telephone base and charger as shown below.

Telephone line cord

Telephone wall jack

Telephone base power adapter

Charger adapter

If you have DSL high speed Internet service, a DSL filter (not included) is required.

Electrical outlet not controlled by a wall switch

Electrical outlet not controlled by a wall switch

Note
- Use only the power adapter and battery supplied with this product. To order a replacement, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

Battery installation
Install the battery as shown below.

1. Plug the battery connector securely into the socket.

2. Place the battery with the label THIS SIDE UP facing up and the wires inside the battery compartment.

3. Slide the battery compartment cover towards the center of the handset until it clicks into place.

4. Place the handset in the telephone base or charger to charge.

Note
If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Battery charging
Once you have installed the battery, the screen indicates the battery status (see the table on the next page).

- For best performance, keep the handset in the telephone base or charger when not in use.
- The battery is fully charged after 10 hours of continuous charging.
- If you place the handset in the telephone base or the charger without plugging in the battery, the screen displays NO BATTERY.
Tabletop to wall mount installation
The telephone comes ready for tabletop use. Follow the steps below to mount your telephone on a wall.

1. Plug one end of the telephone line cord into the TEL LINE jack at the bottom of the telephone base and the base power adapter into the POWER jack.

2. Position the telephone base against the wall mount bracket as shown. Insert the extended tabs marked B on the wall mount bracket into the slots marked B on the back of the telephone base.

3. Route the telephone line cord through the hole on the wall mount bracket and plug it into the telephone wall jack. Route the power cord out of the telephone base and plug it into an electrical outlet not controlled by a wall switch.

4. Align the holes on the bracket with the standard wall plate and slide the bracket down until it locks securely. Bundle the telephone line cord and power adapter cord neatly with twist ties.

<td>The screen is blank, or shows PLACE IN CHARGER and ( \square ) flashes.</td>
<td>Battery has no charge or very little charge. The handset cannot be used.</td>
</tr>
<tr>
<td>The screen shows LOW BATTERY and ( \square ) flashes.</td>
<td>Battery has enough charge to be used for a short time.</td>
</tr>
<tr>
<td>The screen shows HANDSET X.</td>
<td>Battery is charged.</td>
</tr>
</tbody>
</table>

IN USE light
On when the handset is in use. Flashes quickly when there is an incoming call. Flashes slowly when another telephone sharing the same line is in use.

\( \bigcirc \)/FIND HANDSET
Press once and then release to page all system handsets.
Handset overview

CID/VOLUME
Review the call log when the telephone is not in use. Decrease the listening volume during a call. Scroll down while in a menu, or in the directory, call log or redial list. Move the cursor to the left when entering numbers or names.

MUTE/DELETE
Mute the microphone during a call. Delete digits or characters while using the dialing keys. Silence the ringer temporarily while the handset is ringing. Delete the displayed entry while in the directory, call log or redial list.

FLASH
Make or answer a call. Answer another incoming call during a call.

MENU/SELECT
Show the menu. While in a menu, press to select an item, or save an entry or setting.

OFF/CANCEL
Hang up a call. Silence the ringer temporarily while the handset is ringing. Press and hold to erase the missed call indicator while the telephone is not in use. Press to return to the previous menu, or press and hold to return to idle mode, without making changes.

Dialing keys
Enter keys.

# (pound key)
Press repeatedly to show other dialing options when reviewing a call log entry.

INT (intercom)
Start an intercom conversation or transfer a call (for multi-handset models only).

REDIAL/PAUSE
Press repeatedly to review the redial list. Press and hold to insert a dialing pause while entering numbers in the directory.

Using the menu To enter the handset menu:
1. Press MENU/SELECT when the telephone is not in use.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press MENU/SELECT to enter that menu.
   • To return to the previous menu, press OFF/CANCEL.
   • To return to idle mode, press and hold OFF/CANCEL.

Telephone settings Default settings are indicated by an asterisk (*).

</table>

Using the menu To enter the handset menu:
1. Press MENU/SELECT when the telephone is not in use.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press MENU/SELECT to enter that menu.
   • To return to the previous menu, press OFF/CANCEL.
   • To return to idle mode, press and hold OFF/CANCEL.

Telephone settings Default settings are indicated by an asterisk (*).
The following are some of the telephone features you may wish to set. Refer to Telephone settings in the online user’s manual for detailed instructions on setting all telephone features.

Ringer volume
You can adjust the ringer volume level, or turn the ringer off.
1. Press MENU/SELECT when the handset is not in use.
2. Scroll to >RINGERS, then press MENU/SELECT.
3. Press MENU/SELECT to select >RINGER VOLUME.
4. Press ▼ or ▲ to sample each volume level.
5. Press MENU/SELECT to save.

- If the handset ringer volume is set to off, that handset is silenced for all incoming calls except paging tone.
- The ringer volume also determines the ringer volume of the intercom calls and the volume of the paging tone.

Set date and time
If you subscribe to caller ID service, the day, month and time are set automatically with each incoming call.

To set the date and time manually:
1. Press MENU/SELECT when the handset is not in use.
2. Scroll to select >SETTINGS, then press MENU/SELECT.
3. Scroll to select >SET DATE/TIME, then press MENU/SELECT.
4. Use the dialing keys (0-9) to enter the month, date and year.
5. Press MENU/SELECT to advance to set the time.
6. Use the dialing keys (0-9) to enter the hour and minute.
7. Press ▼ or ▲ to choose AM or PM, or press 2 for AM or 7 for PM. Press MENU/SELECT to save.

Voicemail indicators
If you subscribe to voicemail service offered by your telephone service provider, NEW VOICEMAIL and appear on the handset when you have new voicemail messages. Contact your telephone service provider for more information and assistance about using your voicemail service. Refer to Clear voicemail indicators in the online user’s manual on how to clear the voicemail indicators.

Telephone operation
Make a call
- Press /FLASH or 0, and then dial the telephone number.
- OR-
- Predial by first dialing the telephone number and then press /FLASH or 0.

Answer a call
- Press /FLASH, or any dialing key (0-9, TONE or #).

End a call
- Press OFF/CANCEL or put the handset to the telephone base or charger.

Speakerphone
- During a call, press to switch between speakerphone and normal handset use.

Volume
- During a call, press ▼/VOLUME or ▲/VOLUME to adjust the listening volume.

The handset earpiece volume setting and speakerphone volume setting are independent.

Mute
The mute function allows you to hear the other party but the other party cannot hear you.
1. During a call, press MUTE/DELETE. The screen displays MUTED for a few seconds and then MUTE appears until the mute function is turned off.
2. Press MUTE/DELETE again to resume the conversation. The screen temporarily displays MICROPHONE ON.
Call waiting
When you subscribe to call waiting service from your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.

- Press \( \text{FLASH} \) to put the current call on hold and take the new call.
- Press \( \text{FLASH} \) at any time to switch back and forth between calls.

Temporary ringer silencing
When the telephone is ringing, you can temporarily silence the ringer of the handset without disconnecting the call. The next call rings normally at the preset volume.

- To silence the handset ringer, press \( \text{OFF/CANCEL} \) or \( \text{MUTE/DELETE} \) on the handset. **RING MUTED** and \( \square \) display.

Temporary tone dialing
If you have pulse (rotary) service only, you can switch from pulse to tone dialing temporarily during a call.

1. During a call, press \( \text{TONES} \).
2. Use the dialing keys to enter the relevant number. The telephone sends touch-tone signals.
3. The telephone automatically returns to pulse dialing mode after you end the call.

Find handset
Use this feature to find all system handsets.

**To start paging:**
- Press \( \text{FIND HANDSET} \) on the telephone base once and then release. All idle handsets ring and their screens show **PAGING** **.

**To end paging:**
- Press \( \text{FIND HANDSET} \) again on the telephone base once and then release.
- Press \( \text{FLASH} \), \( \text{TONE} \) or any dialing key (0-9, \( \text{TONES} \) or #) on the handheld.
- Place the handset in the telephone base or charger.

Redial list
Each handset stores the last 0 telephone numbers dialed.

**To review and dial a number from the redial list:**
1. Press \( \text{REDIAL/PAUSE} \) when the handset is not in use.
2. Press \( \text{FLASH} \), \( \text{TONE} \) or any dialing key (0-9, \( \text{TONES} \) or #) on the handset.
3. Press \( \text{MUTE/DELETE} \) to dial.

**To delete a redial entry:**
When the desired redial entry displays, press \( \text{MUTE/DELETE} \).

Join a call in progress
You can use up to two system handsets at a time on an outside call. You can buy additional expansion handsets (CS6409) for this telephone base. You can register up to five handsets to the telephone base.

- When a handset is on a call, press \( \text{FLASH} \) or \( \text{TONE} \) on another handset to join the call.
- Press \( \text{OFF/CANCEL} \) to exit the call. The call continues until all handsets hang up.

Intercom
Use the intercom features for conversations between two handsets.

1. Press \( \text{INT} \) on your handset when it is not in use. When you have three or more handsets, use the dialing keys to enter a destination handset number.
2. To answer the intercom call, press \( \text{FLASH} \), \( \text{TONE} \), \( \text{INT} \) or any dialing key (0-9, \( \text{TONES} \), #) on the destination handset.
3. To end an intercom call, press \( \text{OFF/CANCEL} \) or place the handset back in the telephone base or charger.
Answer an incoming call during an intercom call
If you receive an outside call during an intercom call, there is an alert tone.
• To answer the outside call, press FLASH. The intercom call ends automatically.
• To end the intercom call without answering the outside call, press OFF/CANCEL. The intercom call ends and the telephone continues to ring.

Call transfer using intercom
Use the intercom feature to transfer an outside call to another system handset.
1. During a call, press INT. When you have three or more handsets, use the dialing keys to enter a destination handset number.
2. To answer the intercom call, press FLASH, INT or any dialing key (0-9, TONEX, #) on the destination handset. The outside call is still on hold and both handsets now show INTERCOM. You can now have a private conversation with the destination handset.
3. From this intercom call, you have the following options:
   • You can let the destination handset join you on the outside call in a three-way conversation. Press and hold INT on the original handset.
   • You can transfer the call. Press OFF/CANCEL, or place your handset back in the telephone base or charger. Your handset screen shows CALL TRANSFERRED. The destination handset then automatically connects to the outside call.
   • You can press INT to switch between the outside call (OUTSIDE CALL displays) and the intercom call (INTERCOM displays).
   • The destination handset can end the intercom call by pressing OFF/CANCEL, or by placing the handset back in the telephone base or charger. The outside call continues with the original system handset.

Directory
The directory can store up to 50 entries and are shared by all system handsets.

To add a directory entry:
1. Press MENU/SELECT twice.
2. Scroll to >ADD CONTACT, then press MENU/SELECT. When the screen displays ENTER NUMBER:
   • Use the dialing keys to enter the number (up to 30 digits).
   -OR-
   • Copy a number from the redial list by pressing REDIAL/PAUSE and then press ▼, ▲ or REDIAL/PAUSE repeatedly to select a number. Press MENU/SELECT to copy the number.
3. Press MENU/SELECT to move to the name.
4. When the screen displays ENTER NAME, use the dialing keys to enter the name (up to 15 characters). Additional key presses show other characters of that particular key.
5. Press MENU/SELECT to store the entry.

While entering names and numbers, you can:
• Press MUTE/DELETE to backspace and erase a digit or character.
• Press and hold MUTE/DELETE to erase the entire entry.
• Press and hold REDIAL/PAUSE to insert a dialing pause (for entering phone numbers only).
• Press ▼ or ▲ to move the cursor to the left or right.
• Press 0 to add a space (for entering names only).

To review and dial from the directory:
Entries are sorted alphabetically.
1. Press when the handset is not in use.
2. Scroll to browse through the directory, or use the dialing keys to start a name search.
3. When the desired entry appears, press FLASH or ▲ to dial.

To edit a directory entry:
1. When the desired entry displays, press MENU/SELECT.
2. When the screen displays EDIT NUMBER, use the dialing keys to edit.
3. Press MENU/SELECT.
4. When the screen displays EDIT NAME, use the dialing keys to edit.
5. Press MENU/SELECT to save.

To delete a directory entry:
1. When the desired entry displays, press MUTE/DELETE.
2. When the screen displays DELETE CONTACT?, press MENU/SELECT.
Speed dial
You can copy up to 0 directory entries into the speed dial locations so that you can dial these numbers using fewer keys than usual.

To store a speed dial entry:
1. Press MENU/SELECT twice when the handset is not in use.
2. Scroll to SPEED DIAL, then press MENU/SELECT.
3. Scroll to a desired speed dial location, then press MENU/SELECT.
4. Scroll to a desired directory entry, then press MENU/SELECT to save.

To dial a speed dial entry:
1. Press and hold a dialing key (0 through 9) to display the desired speed dial entry when the handset is not in use.
2. Press $ or # to dial the displayed telephone number.

To delete a speed dial entry:
When the desired entry displays, press MUTE/DELETE. <EMPTY> appears.

Caller ID
This product supports caller ID services provided by most telephone service providers. Depending on your service subscription, you may see the caller’s name, number, date and time of calls that are sent by your telephone service provider after the first or second ring.

Call log
The call log stores up to 50 entries. If you answer a call before the caller information appears, it will not be saved in the call log.
• The handset displays XX MISSED CALLS when there are calls that have not been reviewed in the call log.
• If you want to erase the missed call indicator, press and hold OFF/CANCEL on the idle handset.

To review and dial a number in the call log:
1. Press CID when the handset is not in use.
2. Scroll to browse through the call log. When the desired entry appears:
   • Press # (pound key) repeatedly to show different dialing options.
   • Press 1 repeatedly if you need to add or remove 1 in front of the telephone number.
3. Press $ or # to dial the displayed number.

To save a call log entry to the directory:
1. When the desired call log entry displays, press MENU/SELECT.
2. When the screen displays EDIT NUMBER, use the dialing keys to modify the number if necessary.
3. Press MENU/SELECT.
4. When the screen displays EDIT NAME, use the dialing keys to modify the name if necessary.
5. Press MENU/SELECT to save.

To delete the call log entries:
• Delete one entry: When the desired call log entry displays, press MUTE/DELETE.
• Delete all entries: Press MENU/SELECT when the handset is not in use.
Scroll to CALL LOG and then press MENU/SELECT. Scroll to DEL ALL CALLS and then press MENU/SELECT twice.

Add and register a handset
The handsets provided with your telephone system are already registered. Each handset is assigned a number that show on the handset display. Additional handsets registered to the telephone system are assigned numbers in sequential order. This telephone system accommodates up to five handsets.
You can add new handsets (CS6409, purchased separately) to your telephone system. Each handset must be registered with the telephone base before use. When first purchased and properly charged, each expansion handset shows 1.PRESS FIND HS ON BASE 4 SEC and 2.THEN PRESS # ON HANDSET alternately. You need to charge the handset before registering it to the telephone base.

To register a handset:
1. Place the unregistered handset in the telephone base or charger. If 1.PRESS FIND HS ON BASE 4 SEC and 2.THEN PRESS # ON HANDSET do not appear alternately on the handset after a few seconds, remove the handset and place it in the telephone base or charger again.
On the telephone base, press and hold [FIND HANDSET] for about four seconds until the [IN USE] light on it turns on.

On the handset, press # (pound key) and the handset shows REGISTRATION..... PLEASE WAIT. The handset shows HANDSET REGISTERED and you hear a beep when the registration process completes. It takes about 60 seconds to complete the process.

Replace a handset
If you want to replace a handset or reassign the designated handset number of a registered handset, you must deregister all handsets and then individually register each handset.

To make deregistration easier, read all of the instructions below before you begin.

To deregister all handsets:
1. Press and hold [FIND HANDSET] on the telephone base for about 10 seconds until the [IN USE] light on the telephone base turns on and starts to flash.
3. All handsets show 1.PRESS FIND HS ON BASE 4 SEC and 2.THEN PRESS # ON HANDSET alternately when the deregistration process completes. The deregistration process takes about 10 seconds to complete.

Troubleshooting
If you have difficulty with your telephone, please try the suggestions below.
For customer service, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

My telephone does not work at all.
- Make sure the battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base after use.
- Make sure the power adapter is securely plugged into an outlet not controlled by a wall switch.
- Make sure the telephone line cord is plugged firmly into the telephone base and the wall jack.
- Unplug the electrical power to the telephone base. Wait for approximately 15 seconds, then plug it back in. Allow up to one minute for the cordless handset and telephone base to synchronize.
- Charge the battery in the handset for up to 0 hours.
- If the battery is completely depleted, it may take up to 30 minutes to charge the handset before LOW BATTERY appears on the screen.
- Remove and install the battery again. If that still does not work, it may be necessary to purchase a new battery.
- Disconnect the telephone base from the telephone wall jack and plug in a working telephone. If the other telephone does not work, the problem is probably in the wiring or local telephone service. Contact your telephone service provider.

The display shows NO LINE. I cannot get a dial tone.
- Try all the above suggestions.
- Make sure there is a dial tone before dialing. It is normal if the handset takes a second or two to synchronize with the telephone base before producing a dial tone. Wait an extra second before dialing.
- If other telephones in your home are having the same problem, the problem is in the wiring or local telephone service. Contact your telephone service provider (charges may apply).
- Eliminate any background noise. Mute the cordless handset before dialing, or dial from another room in your home with less background noise.

LOW BATTERY shows on the handset screen.
- Place the handset in the telephone base or charger for recharging.
- Remove and install the battery again and use it until fully depleted, then charge the handset in the telephone base or charger for up to 10 hours.
- If the above measures do not correct the problem, replace the battery.

The battery does not charge in the handset or the handset battery does not accept charge.
- Make sure the handset is placed in the telephone base or charger correctly. The CHARGE light on the handset should be on.
- Remove and install the battery again, then charge for up to 10 hours.
The CHARGE light is off.
- Clean the charging contacts on the handset, telephone base and charger each month with a pencil eraser or a dry non-abrasive fabric.
- Make sure the power adapter and telephone line cord are plugged in correctly and securely.
- Unplug the power adapter. Wait for 15 seconds before plugging it back in. Allow up to one minute for the handset and telephone base to reset.

The telephone does not ring when there is an incoming call.
- Make sure the handset ringer volume is not set to off.
- Make sure the telephone line cord and power adapter are plugged in properly.
- The handset may be too far from the telephone base. Move it closer to the telephone base.
- There may be too many extension phones on the telephone line to allow all of them to ring simultaneously. Unplug some of them.
- If other telephones in your home are having the same problem, the problem is in the wiring or local telephone service. Contact your telephone service provider (charges may apply).
- Other electronic products such as HAM radios and other DECT phones can cause interference with your cordless phone. Try installing your phone as far away as possible from these types of electronic devices.
- Test a working telephone at the telephone wall jack. If another telephone has the same problem, the problem is in the telephone wall jack. Contact your telephone service provider (charges may apply).
- The telephone line cord may be malfunctioning. Install a new telephone line cord.
- Remove and install the battery again and then place the handset in the telephone base.
- Wait for the handset to synchronize with the telephone base. Allow up to one minute for this to take place.

My caller ID features are not working properly.
- Caller ID is a subscription service. You must subscribe to this service from your telephone service provider for this feature to work on your telephone.
- The caller may not be calling from an area which supports caller ID.
- Both your and your caller's telephone service providers must use equipment compatible with the caller ID service.
- The caller ID information shows after the first or second ring.
- If you subscribe to high-speed Internet service (DSL - digital subscriber line) through your telephone line, you must install a DSL filter between the telephone line cord and the telephone wall jack. The filter prevents noise and caller ID problems caused by DSL interference. Contact your DSL service provider for more information about DSL filters.
- The caller may not be calling from an area which supports caller ID.
- Both your and your caller's telephone service providers must use equipment compatible with the caller ID service.
- The caller ID information shows after the first or second ring.

There is interference during a telephone conversation.
- My calls fade out when I am using the cordless handset.
  - The handset may be out of range. Move it closer to the telephone base.
  - If you subscribe to high-speed Internet service (DSL - digital subscriber line) through your telephone line, you must install a DSL filter between the telephone line cord and the telephone wall jack. The filter prevents noise and caller ID problems caused by DSL interference. Contact your DSL service provider for more information about DSL filters.
  - The handset may be too far from the telephone base. Move it closer to the base.
  - Other electronic products such as HAM radios and other DECT phones can cause interference with your cordless phone. Try installing your phone as far away as possible from these types of electronic devices.
- There may be too many extension phones on the telephone line to allow all of them to ring simultaneously. Unplug some of them.
- If other telephones in your home are having the same problem, the problem is in the wiring or local telephone service. Contact your telephone service provider (charges may apply).
- The caller ID information shows after the first or second ring.
- If you subscribe to high-speed Internet service (DSL - digital subscriber line) through your telephone line, you must install a DSL filter between the telephone line cord and the telephone wall jack. The filter prevents noise and caller ID problems caused by DSL interference. Contact your DSL service provider for more information about DSL filters.
- The caller may not be calling from an area which supports caller ID.
- Both your and your caller's telephone service providers must use equipment compatible with the caller ID service.
- The caller ID information shows after the first or second ring.

I hear other calls when using the telephone.
- Disconnect the telephone base from the telephone wall jack. Plug in a different telephone. If you still hear other calls, the problem is probably in the wiring or local telephone service. Contact your telephone service provider.

I hear noise on the cordless handset and the keys do not work.
- Make sure the telephone line cord is plugged in securely.

OUT OF RANGE OR NO PWR AT BASE shows on the handset screen.
- The handset may be out of range. Move it closer to the telephone base.
- Make sure the power adapter and telephone line cord are plugged into the telephone base. Use a working electrical outlet not controlled by a wall switch.
- Reset your telephone by unplugging the electrical power to the base. Wait for 5 seconds and plug it back in again. Allow up to one minute for the handset and telephone base to reset.
- Make sure the power cord is securely plugged into the telephone base. Plug the power adapter and telephone line cord into a centralized location such as the telephone or office, away from walls or other obstructions. In many environments, elevating the telephone base improves overall performance.
- Disconnect the telephone base from the telephone wall jack and plug in a corded telephone. If calls are still not clear, the problem is probably in the wiring or local telephone service. Contact your telephone service provider (charges may apply).
- If other telephones in your home are having the same problem, the problem is in the wiring or local telephone service. Contact your telephone service provider (charges may apply).

I hear other calls when using the telephone.
- Disconnect the telephone base from the telephone wall jack. Plug in a different telephone. If you still hear other calls, the problem is probably in the wiring or local telephone service. Contact your telephone service provider.
- Other electronic products such as HAM radios and other DECT phones can cause interference with your cordless phone. Try installing your phone as far away as possible from these types of electronic devices.
NEW VOICEMAIL and show on the display and I don’t know why.

- **If NEW VOICEMAIL and appear on your display, then your telephone has received a signal from your wireless service provider that you have a voicemail waiting for you to retrieve from your telephone service provider. Contact your telephone service provider for more information on how to access your voicemail.**

**Common cure for electronic equipment.**

- If the telephone is not responding normally, put the cordless handset in the telephone base. This does not fix the problem, but the following (in order listed):
  1. Disconnect the power to the telephone base.
  2. Disconnect the battery on the cordless handset.
  3. Wait a few minutes before connecting power to the telephone base.
  4. Install the battery again and place the cordless handset in the telephone base.
  5. Replace the cordless handset to synchronize with the telephone base. Allow up to one minute for this to take place.

**Important safety instructions**

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Do not use this product in a wet environment.
4. Do not use this product near water such as a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
5. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
6. Slots and openings in the back or bottom of the telephone base and handset are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register. This product should not be placed in any area where proper ventilation is not provided.
7. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
8. Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
9. Never push objects of any kind into this product through the slots in the telephone base or handset because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
10. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the telephone base or handset other than those listed in the instructions may expose you to dangerous voltages or other risks. Incorrect reassembly can create electric shock when the product is subsequently used.
11. Do not overload wall outlets and extension cords.

**SAVE THESE INSTRUCTIONS**

**Battery**

- **CAUTION:** Use Only Supplied Battery.
- Do not dispose of the battery in the fire. Check with local waste management codes for special disposal of electronic waste.
- Do not open or mutilate the battery. Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
- Exercise care in handling batteries in order not to short a circuit with conductive materials.
- Charge the battery provided with or identified for use with this product only in accordance with the instructions and limitations specified in this manual.

**Precautions for users of implanted cardiac pacemakers**

Cardiac pacemakers (applies only to digital cordless telephones):

- When using the wireless cordless telephone, the user is advised that this product has not been tested below 0.7 W (1.44 W for TDMA) SAR and should not be worn on the head or body in proximity to the auricle of the ear.
- This device has been tested and found to meet the SAR guidelines of the FCC and IC.

**Pacemaker patients**

- Should keep wireless telephones at least six inches from the pacemaker.
- Should NOT place wireless telephones directly over the pacemaker, such as in a breast pocket, when it is turned ON.
- Should use the wireless telephone at the ear opposite the pacemaker. WTR’s evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless telephones.

**NEW VOICEMAIL and show on the display and I don’t know why.**

- **If NEW VOICEMAIL and appear on your display, then your telephone has received a**
About cordless telephones

- **Privacy:** The same features that make a cordless telephone convenient create some limitations. Telephone calls are transmitted between the telephone base and the cordless handset by radio waves, so there is a possibility that the cordless telephone conversations could be intercepted by radio receiving equipment within range of the cordless handset. For this reason, you should not think of cordless telephone conversations as being as private as those on corded telephones.

- **Electrical power:** The telephone base of this cordless telephone must be connected to a working electrical outlet. The electrical outlet should not be controlled by a wall switch. Calls cannot be made from the cordless handset if the telephone base is unplugged, switched off or if the electrical power is interrupted.

- **Potential TV interference:** Some cordless telephones operate at frequencies that may cause interference to televisions and VCRs. To minimize or prevent such interference, do not place the telephone base of the cordless telephone near or on top of a TV or VCR. If interference is experienced, moving the cordless telephone farther away from the TV or VCR often reduces or eliminates the interference.

- **Rechargeable batteries:** Exercise care in handling batteries in order not to create a short circuit with conducting material such as rings, bracelets, and keys. The battery or conductor may overheat and cause harm. Observe proper polarity between the battery and the battery charger.

- **Nickel-metal hydride rechargeable batteries:** Dispose of these batteries in a safe manner. Do not burn or puncture the battery. Like other batteries of this type, if burned or punctured, they could release caustic material which could cause injury.

Operating range

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate only over a certain distance - which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays **OUT OF RANGE OR NO PWR AT BASE**. If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press **FLASH**. Move closer to the telephone base, then press **FLASH** to answer the call.

If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

Maintenance

Taking care of your telephone

Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

- **Avoid rough treatment**
  - Place the handset down gently. Save the original packing materials to protect your telephone if you ever need to ship it.

- **Avoid water**
  - Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

- **Electrical storms**
  - Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a soft cloth slightly dampened with water or mild soap. Do not use excess water or cleaning solvents of any kind.

Remember that electrical appliances can cause serious injury if used when you are wet or standing in the water. If the telephone base should fall into the water, DO NOT RETRIEVE IT UNTIL YOU UNPLUG THE POWER CORD AND TELEPHONE LINE CORD FROM THE WALL. Then remove the telephone by the unplugged cords.

The RBRC® seal

The RBRC® seal on the nickel-metal hydride battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC® program provides a convenient alternative to placing used nickel-metal hydride batteries into the trash or municipal waste, which may be illegal in your area. VTech’s participation in RBRC® makes it easy for you to drop off the spent battery at local retailers participating in the RBRC® program or at authorized VTECH product service centers. Please call 1 (800) 8 BATTERY® for information on Ni-MH battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

RBRC® is a registered trademark of Rechargeable Battery Recycling Corporation.
This product meets the applicable Industry Canada technical specifications.

requirement that the sum of the RENs of all the devices does not exceed five.
The termination on an interface may consist of any combination of devices subject only to the indication of the maximum number of devices allowed to be connected to a telephone interface.
The Ringer Equivalence Number (REN) for this terminal equipment is 0. The REN is a technical specification that was met.
The term “IC” before the certification/registration number only signifies that the Industry Canada privacy of communications may not be ensured when using this telephone.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The handset may be safely held against the ear of the user. The telephone base shall be installed and used such that parts of the user’s body other than the hands are maintained at a distance of approximately 20 cm (8 inches) or more.

This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B).

This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). The label on the back or bottom of this equipment contains, among other things, a product identifier in the format US: AAAEQ##TXXXX. This identifier must be provided to your telephone service provider upon request.

The plug and jack used to connect this equipment to premises wiring and the telephone network must comply with applicable Part 68 rules and technical requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user’s manual.

The Ringer Equivalence Number (REN) is used to determine how many devices you may connect to your telephone line and still have them ring when you are called. The REN for this product is 0.3. In most, but not all areas, the sum of all RENs should be five (5.0) or less. For more information, please contact your telephone service provider.

This equipment may not be used with Party Lines. If you have a specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone service provider or a qualified installer.

If this equipment is malfunctioning, it must be unplugged from the modular jack until the problem has been corrected. Repairs to this telephone equipment can only be made by the manufacturer or its authorized agents. For repair procedures, follow the instructions outlined under the Limited warranty.

If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue your telephone service. The telephone service provider is required to notify you in advance of disconnection of service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone service provider is required to notify you if such changes are planned.

If this product is equipped with a corded or cordless handset, it is hearing aid compatible. The telephone base shall be installed and used such that parts of the user’s body other than the hands are maintained at a distance of approximately 8 inches (20 cm) or more.

Perform such activities in off-peak hours, such as early morning or late evening.

Consult the dealer or an experienced radio/TV technician for help.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.

L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de stimulateurs cardiaques. Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil) :

- Avis aux détenteurs de stimulateurs cardiaques

  • Avis aux détenteurs de stimulateurs cardiaques
  
  • Avis aux détenteurs de stimulateurs cardiaques
  
  • Avis aux détenteurs de stimulateurs cardiaques
  
  • Avis aux détenteurs de stimulateurs cardiaques

  1. Lisez et comprenez bien toutes les instructions.
  2. Observez toutes les instructions et mises en garde inscrites sur l’appareil.
  4. N’utilisez pas ce téléphone près de l’eau, tel que près d’un bain, d’un lavabo, d’un vier de cuisine, d’un bac de lavage ou d’une piscine, ou dans un sous-sol humide ou sous la douche.
  5. Ne déposez pas ce téléphone sur un chariot, support ou table chancelants. L’appareil pourrait tomber et être sérieusement endommagé.
  7. Afin de réduire les risques d’électrocution, ne démontez pas l’appareil, mais apportez-le plutôt à un centre de service qualifié s’il doit être réparé. En enlevant le couvercle, vous pourriez être exposé à de tensions dangereuses ou autres dangers similaires. Un remontage inadéquat peut être à l’origine d’une électrocution lors d’une utilisation ultérieure de l’appareil. Débranchez l’appareil avant de procéder au nettoyage. Utilisez un chiffon humide et doux.
  8. Ne surchargez pas les prises de courant et les rallonges.
  9. Débranchez cet appareil de la prise de courant et communiquez avec le département de service à la clientèle de VTech dans les cas suivants:
  
  • Lorsque le cordon d’alimentation est endommagé ou écorné.
  • Si du liquide a été échappé dans l’appareil.
  • Si l’appareil a été exposé à une source d’humidité telle que la pluie ou l’eau.
  • Si le produit ne fonctionne pas normalement en respectant les instructions de fonctionnement, même si l’appareil est en position verticale ou allongé, uniquement les commandes indiquées dans les instructions de fonctionnement. Les réglages incorrects des autres commandes pourraient provoquer un dommage qui pourrait exiger un travail exhaustif de la part d’un technicien autorisé afin de rétablir le fonctionnement normal de l’appareil.
  • Si le produit a été échappé et que le cordon ou le combiné a été endommagé.
  • Si le produit affiche une nette diminution de sa performance.
  10. Évitez d’utiliser un téléphone (autre qu’un sans fil) pendant un orage. Les éclairs peuvent être à l’origine d’une électrocution.
  11. Ne dites pas à l’appareil de rapporter une fuite de gaz à proximité de celui-ci.

CONSERVEZ CES INSTRUCTIONS

Piles

• MISE EN GARDE : N’utilisez que la pile incluse.
• Ne jetez pas la pile au feu. Vérifiez les instructions spécifiques de mise aux rébus auprès des autorités locales.
• N’ouvrez pas et ne mutilez pas la pile. L’électrolyte qui s’en échapperait est corrosif et pourrait causer des brûlures ou des blessures aux yeux ou à la peau. L’électrolyte est toxique si avalé.
• Soyez prudents lorsque vous manipulez les piles afin d’éviter les courts-circuits provoqués par des matériaux conducteurs.
• Rechargez la pile incluse ou identifiée pour fonctionner avec cet appareil, selon les instructions et limites spécifiées dans ce guide d’utilisation.

Stimulateurs cardiaques implantés dans l’organisme

Les simulateurs cardiaques (s’applique uniquement aux téléphones numériques sans fil) :

L’organisme Wireless Technology Research, LLC (WTR), une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l’organisme. Appuyée par l’American Association of the Aged et de drogues (FDA) des États-Unis, la firme WTR recommande aux médecins :

Avis aux détenteurs de stimulateurs cardiaques

• Ils doivent tenir le téléphone sans fil à distance d’au moins six pouces du stimulateur cardiaque.
• Ils doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche.
• Ils doivent utiliser le téléphone sans fil en l’appuyant sur l’oreille qui se trouve dans la direction opposée au stimulateur cardiaque.

L’utilisation par l’organisme WRS n’a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent un téléphone sans fil à proximité de ceux-ci.
Limited warranty

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase (“Consumer” or “you”) that the Product and all accessories provided in the sales package (“Product”) are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer and is not transferable. VTech provides no other express warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

This warranty is the complete and exclusive agreement between you and VTech. It supersedes any prior agreement or representation, including any printed or口头 representations, if any, made by VTech.

This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage,
2. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible, or
3. Product returned without a valid proof of purchase (see item 2 below); or
4. Product to the extent that the problem is caused by use with non-VTech accessories; or
5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible, or
6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
7. Product repaired or replaced by anyone other than VTech or an authorized service representative of VTech; or
8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period (“Materially Defective Product”)?

During the limited warranty period, VTech will, at its option, repair or replace a Materially Defective Product. If we choose to replace the Product, we will either (a) replace it with a new Product or a Product as nearly identical to the new Product as is commercially available at the time of the replacement, or (b) refund your purchase price. Except as provided by applicable law, you assume the risk of loss or damage during transit and transport.

What must you return with the Product to get warranty service?

To obtain warranty service in the United States, please visit our website at www.vtechphones.com or call 1 (800) 595-95. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, the warranty period is extended for the time remaining on the original warranty, to the extent permitted by applicable law.

What is not covered by this limited warranty?

This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion;
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
3. Product to the extent that the problem experienced is caused by signal conditions, network controls and features may save you a service call.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

How do you get warranty service?

To obtain warranty service in the United States, please visit our website at www.vtechphones.com or call 1 (800) 595-95. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

NOTÉ: Dans le cas d’un appel pour une consultation, s’il vous plaît vérifiez le manuel de l’utilisateur - une vérification des contrôles et des fonctions de l’appareil pourrait vous éviter une visite de service.

How do you get warranty service?

To obtain warranty service in the United States, please visit our website at www.vtechphones.com or call 1 (800) 595-95. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transport and are responsible for delivery or handling charges incurred in the transport of the Product to the service location. VTech may require you to provide a sales receipt as proof of purchase at the time you request warranty service. You may be required to repackage the Product, at your expense, for repair from outside the United States of America or Canada, or for repair of accessories, modules, or equipment.

WHAT WILL VTech DO IF THE PRODUCT IS NOT FREE FROM DEFECTS IN MATERIALS AND WORKMANSHIP DURING THE LIMITED WARRANTY PERIOD (“MATERIALLY DEFECTIVE PRODUCT”)?

During the limited warranty period, VTech will, at its option, repair or replace a Materially Defective Product. If we choose to replace the Product, we will either (a) replace it with a new Product or a Product as nearly identical to the new Product as is commercially available at the time of the replacement, or (b) refund your purchase price. Except as provided by applicable law, you assume the risk of loss or damage during transit and transport.

WHAT MUST YOU RETURN WITH THE PRODUCT TO GET WARRANTY SERVICE?

1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
3. Provide your name, complete and correct mailing address, and telephone number.

STATE/PROVINCIAL LAWS:

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

À propos des téléphones sans fil

• Confidentialité : Les mêmes caractéristiques qui constituent des avantages pour les téléphones sans fil affichent également des restrictions. Les appels téléphoniques sont transmis entre le combiné sans fil et le socle par le biais d’ondes radio ; il y a donc la possibilité que vos conversations téléphoniques sans fil soient interceptées par des émetteurs radio. Les railllements de signal radio se retrouvent dans le portée du combiné sans fil. Pour cette raison, vous ne devez pas percevoir les communications téléphoniques sans fil comme étant aussi confidentielles que celles des téléphones à cordons.

• Alimentation électrique : Le socle de ce téléphone sans fil doit être branché à une prise électrique appropriée. La prise électrique doit ne pas être contrôlée par un interrupteur mural. Les appels ne pourront pas être effectués du combiné sans fil si le socle est débranché ou mis hors tension ou si le courant est coupé.

• Possibilité d’interférences aux téléviseurs : Certains téléphones sans fil fonctionnent sur des fréquences pouvant causer des interférences aux téléviseurs et aux magnétoscopes. Pour réduire ou prévenir de telles interférences, ne placez pas le socle du téléphone sans fil près ou sur un téléviseur ou magnétoscope. S’il y a présence de parasites, il est conseillé d’éloigner le téléphone sans fil du téléviseur ou du magnétoscope afin de réduire possiblement les interférences.

• Piles rechargeables : Manipulez les piles avec soin afin de ne pas les court-circuiter avec des bagues, bracelets ou clés. Les piles ou le conducteur peut surchauffer et causer des blessures corporelles si elle est placée dans un dispositif métallique.

• Les bloc-piles rechargeables à l’hydrure métallique de nickel : Jetez ces blocs-piles de manière écologique et sécuritaire. Ne les incinérez pas et ne les percez pas. Tel que les autres piles de ce type, elles pourraient dégager une matière toxique qui peut causer des blessures corporelles si elles sont brûlées ou percées.

LIMITED WARRANTY

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion;
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
3. Product to the extent that the problem experienced is caused by signal conditions, network

STATE/PROVINCIAL LAWS:

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

15
Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.

Technical specifications

| Transmit frequency | Handset: 921.536-1928.448 MHz  
                  | Telephone base: 921.536-1928.448 MHz |
|-------------------|-------------------------------------|
| Channels          | 5                                   |
| Nominal effective range | Maximum power allowed by FCC and IC. Actual operating range may vary according to environment conditions at the time of use. |
| Power requirements | Handset: 2.4V Ni-MH battery  
                    | Telephone base: 6V AC @ 300mA  
                    | Charger: 6V AC @ 300mA |
| Memory            | Handset directory:  
                    | 50 memory locations; up to 30 digits and 15 characters  
                    | Handset call log:  
                    | 50 memory locations; up to 24 digits and 15 characters |

Designed to fit your home.  
And your life.
