The parent unit runs on rechargeable battery
or AC power. To continuously monitor your

Install the battery

nonitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time only.

- **P**NOTES
- Use only the battery supplied with this product • The operating time for using the rechargeable battery is short. If you want to monitor your baby for a long time, we recommend you connect the parent unit to AC power.
- If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

## Install the battery as shown below.

**P**NOTE · Press down on the large tab of the battery compartment cover to pull it out

## **O**NOTE

## • Make sure the label THIS SIDE UP is facing up while inserting the battery.

## Replace the battery

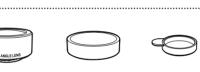

To replace the battery, press down on the

## large tab of the battery compartment cover and pull it out, then follow the steps above to install the battery. Parent unit display icons **Connection status** 760 displays when strong signal strength is detected between the baby unit and the parent unit. In or In displays when moderate or low signal strength is detected between the baby unit and the parent unit displays when the link between the baby unit and the parent unit is lost Lullaby П Displays when the baby unit is playing lullaby. Current view status Displays the number of the baby ©2 or unit that is being viewed when in 030 SINGLE-CAM and PATROL mode Displays the number of the highlighted baby unit when in SPLIT-VIEW mode. Patrol mode Displays when the parent unit is in PATROL mode. Split-view mode Displays when the parent unit is in SPLIT-VIEW mode. Night vision Displays when the baby unit being viewed has activated the night vision feature. Displays when the baby unit camera has zoomed in. Temperature alert tone Displays when the temperature alert tone is set on. °**F** or Real-time temperature °C ∣ Displays the real-time temperature detected by the baby unit in Fahrenheit (°F) or Celcius (°C) (e.g. **57** °**F** or **14** °**C**).

## efore use

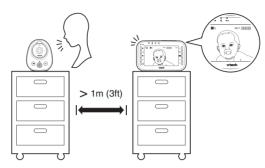

## 

· This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such

## Test your baby monitor

You may test the baby monitor before initial use, and at regular times thereafter.

- ()CAUTION
- For hearing protection, make sure the parent unit is more than 1 meter (3 feet) away from the baby unit. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press -/VOL on the parent unit to lower or mute the noise

- 1. Make sure your baby units and parent unit are on.
- 2. The parent unit displays images from the baby unit.
- Speak towards the baby unit microphone. You will hear the sound at the parent
- 3. If you have more than one baby unit, press **VIEW** on the top of your parent unit. The screen switches to other baby units. Then, repeat step 2.

## 

use.

When the parent unit displays  $\mathbb{Z}$  and then **No link** to CAM # (# represents the selected baby unit number), and the LINK LED light flashes, move the parent unit closer to the baby unit (observe the minimum distance of 1 meter/ 3 feet). You can also check if the baby monitor is connected to a live power socket and switched on.

• Increase the parent unit speaker volume if you cannot hear the sounds transmitted from the baby

## Parent unit display messages

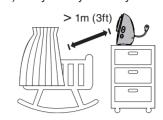

arone anne arophay moodagoo				
No link to CAM # *	The selected baby unit is out of range or is turned off.			
Battery low at Parent Unit	The battery level of the parent unit is very low and needs to be recharged.			
Battery empty. Powering off	The battery is empty and needs to be recharged.			
Sound detected at CAM #	The sound level exceeds the threshold at CAM # in <b>SPLIT-VIEW</b> mode.			
Temperature too high at CAM # or Temperature too low at CAM #	The temperature detected by the baby unit is higher/lower than the desired temperature alert range.			
Powering on	The parent unit is turning on.			
\$	The parent unit is searching for baby units.			

\* # represents the selected baby unit number.

## Positioning the baby monitor

## ()CAUTION

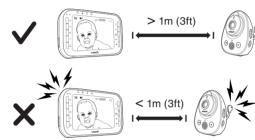

- Keep the baby units out of the reach of your baby. Never place or mount the baby units inside the baby's crib or playpen
- To avoid interference from other electronic devices, place your baby monitor far away from devices such as wireless routers, microwaves, cell phones and computers.
- 1. Place the baby units more than 1 meter (3 feet) away from your baby.

2. Adjust the angle of the baby unit camera to aim at your baby.

Place the parent unit more than 1 meter (3 feet) away from the baby units.

## ()CAUTION

- The default volume of your parent unit is level 4.
- If you experience high-pitched screeching noise
- from your baby monitor while positioning: - Make sure your baby units and parent unit are
- more than 1 meter (3 feet) apart, OR - Turn down the volume of your parent unit.

## Using the baby monitor

## Power on or off the baby unit

- Slide the **ON/OFF** switch on the baby units to ON to power on. The ON/OFF LED light turns on
- Slide the **ON/OFF** switch on the baby units to OFF to power off. The ON/OFF LED light turns off.

## Power on or off the parent unit

- Press and hold 0 to power on the parent unit. The screen turns on.
- Press and hold <sup>Φ</sup> again to power off the parent unit. The screen turns off.

## Turn on or off the parent unit screen

You can turn on or off the parent unit screen without powering off the parent unit. You can still hear sound from the baby units.

- Press and hold LCD ON/OFF on the top of the parent unit to turn off the screen.
- Press any key on the parent unit to turn on the screen again

## Adjust the speaker volume

- For parent unit:
- Press +/VOL/- on the parent unit at any time when viewing images.
- **𝔅**NOTE • When the parent unit speaker volume is set to
- zero, appears on the screen and the 🛛 light turns on.

## For baby unit:

The baby unit speaker volume determines the lullaby volume and talkback volume transmitted from parent unit.

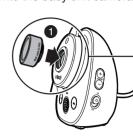

• Press +/VOLUME/- on the baby unit to adjust the speaker volume.

## Operating range

The operating range of the baby monitor is up to 300 meters (1,000 feet) outdoors or 50 meters (160 feet) indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

## <u>nstall the lens (optional</u>

The wide-angle lens (VM101) provided allows you to view more of your baby's room from the parent unit screen. Install the wide-angle lens onto the baby unit camera as shown below.

## · When the lens is not in use, cover both sides of the lens with the lens covers provided to avoid

- scratches You can purchase and install an extra new
- necessarv.

## Play lullaby on the baby unit

You can play lullaby on the baby unit to comfort your baby.

- Press ►/■ on the baby unit to play lullaby.
- Press ➡ on the baby unit to switch to the
- other lullabies

## Press $\blacktriangleright$ again to stop the lullaby.

Set the language

press SELECT.

## Turn on or off the dim mode

The dim mode is preset to on to help you save the parent unit power. Whenever the parent unit has been left idle for 10 minutes while the screen is still on, the screen will be dimmed automatically to save power.

- 1. Press **MENU** when the parent unit is idle. 2. Press  $\mathbf{\nabla}$  or  $\mathbf{A}$  to choose **LCD**, then press
- SELECT.
- 3. Press  $\triangledown$  or  $\blacktriangle$  to choose **Dim Mode**, then press SELECT.
- 4. Press  $\mathbf{\nabla}$  or  $\mathbf{\Delta}$  to choose **On** or **Off**, then press SELECT to confirm your selection. **P**NOTE
- · While the screen is dimmed, any keypress or alert message will trigger the screen to return to the preset brightness level. After 10 minutes of idle, it will be dimmed again

## Turn on or off the sound activation

When sound activation is on, as long as no sound is detected within 50 seconds, the parent unit screen will turn off automatically to save power.

When your baby unit detects a sound, the sound activation triggers the parent unit screen to turn on automatically. When no sound is detected within 50 seconds, the screen will be off again.

- 1. Press MENU when the parent unit is idle.
- 2. Press ▼ or ▲ to choose **Sound-activated** Screen, then press SELECT.
- 3. Press  $\mathbf{\nabla}$  or  $\mathbf{A}$  to choose **On** or **Off**, then press **SELECT** to confirm your selection. The screen returns to main menu.

**P**NOTES

• Sound activation is available in SINGLE-CAM and PATROL mode only.

• If the sound sensitivity is set to **Highest**, the parent unit screen may remain on continuously even though sound activation is on.

## Adjust the sound sensitivity of the baby units

You can choose to hear sounds from the baby units all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby units from Lowest to Highest The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The sound sensitivity level is preset to Highest.

## Sound sensitivity table for reference

Sound sensitivity table for reference				
Sensitivity Level	Description			
Highest	The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.			
High	The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.			
Medium	The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.			
Low	The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.			
Lowest	The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.			

1. Press **MENU** when the parent unit is idle.

- 2. Press  $\nabla$  or  $\blacktriangle$  to choose **Sensitivity**, then press SELECT. If you have more than one baby unit.
- the system prompts you to choose the desired baby unit or all baby units, press  $\checkmark$  or  $\blacktriangle$  to choose ALL CAM or CAM #, then press SELECT.
- 3. Press ▼ or ▲ to choose the desired sensitivity level, then press **SELECT** to confirm your selection.

- You can adjust the baby unit placement to improve the sound detection
- . Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product Baby unit power adapter: Output: 5V DC 1A Parent unit power adapter: Output: 5V DC 1A.
- 3. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet
- . For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible
- 10. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning
- 11. Unplug the power cords before replacing
- 12. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situati
- 13. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or crimped
- 14. This product should be operated only from the type of power source indicated on the marking abel. If you are not sure of the type of power supply in your home, consult your dealer or local power company
- 15. Do not overload wall outlets or use an extension
- 16. Do not place this product on an unstable table.
- shelf, stand or other unstable surfaces. 17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect hem from overheating, these openings mus not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product
- 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerou voltages or other risks. Incorrect reassemblir can cause electric shock when the product is subsequently used
- You should test the sound reception every time you turn on the units or move one of the components
- 21. Periodically examine all components for damage.
- 22. Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.

## Monitoring mode

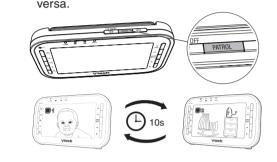

Every time the parent unit is turned on, it displays a baby unit in SINGLE-CAM mode If there are more than one baby units in your system, you can also monitor your baby in PATROL or SPLIT-VIEW mode.

SINGLE-CAM	The screen displays a single baby unit in full screen.
PATROL 🖳	A single cam view that transits to a different baby unit every 10 seconds.
SPLIT-VIEW 器	The screen displays all baby units (up to four) on one screen.

In SINGLE-CAM or PATROL mode: Press VIEW to view the next baby unit.

 Press PATROL to switch to PATROL mode if you are in **SINGLE-CAM** mode, and vice

- 23. Children should be supervised to ensure that they do not play with the product.
  - 24. The product is not intended for use by persons (including children) with reduced physical,
  - sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety

## SAVE THESE INSTRUCTIONS

- 1. Use and store the product at a temperature
- between 32°F and 104°F 2. Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to
- a heating source Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- Make sure the baby unit(s) and the adapter cord(s) are always out of reach of the baby, at least 3 feet away from the baby or crib, to avoid a possible strangulation hazard.
- Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent init with anything such as a towel or a blanket.
- Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

#### Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless

Wireless Technology Research, LLC (WTR), an ndependent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that: Pacemaker patients

- Should keep wireless devices at least six inches
- from the pacemaker Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

## Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

## • Press SPLIT to enter the SPLIT-VIEW mode.

# SPLIT

## In SPLIT-VIEW mode:

- Press ▲, ▼, ◀ or ▶ to select a baby unit. Press ⊕ or VIEW key to view the selected baby unit temporarily in SINGLE-CAM mode. It returns to **SPLIT-VIEW** mode after 10 seconds.
- Press PATROL to enter PATROL mode.
- Press SPLIT to return to the mode (SINGLE-CAM or PATROL) used before entering SPLIT-VIEW mode.

## RNOTE

 The parent unit is muted while in SPLIT-VIEW mode

## Zoom

You can zoom in or out while viewing image from baby unit in **SINGLE-CAM** and **PATROL** mode

- Press and hold  $\blacktriangle$ ,  $\bigtriangledown$ ,  $\triangleleft$  or  $\triangleright$  to move the zoomed image upward, downward, leftward or rightward correspondingly.
- Press ⊕ again to zoom out.

You can use the **TALK** function of the parent unit to comfort your baby in SINGLE-CAM and PATROL mode

- 1. Press and hold TALK on the parent unit. he TALK light turns on.
- 2. Speak towards the microphone on the parent unit. Your voice is broadcast to the baby unit.
- 3. Release the TALK key to stop the broadcast. The TALK light goes off.

## The RBRC® seal

The RBRC<sup>®</sup> seal on the lithium-ion battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC<sup>®</sup> program provides a convenient alternative to placing used lithium-ion batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation in RBRC<sup>®</sup> makes it easy fo you to drop off the spent battery at local retailers participating in the RBRC® program or at authorized VTech product service centers. Please call **1 (800) 8 BATTERY®** for information on Li-ion battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

## FCC and IC regulations

## FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against narmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However. there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or televisior reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna. • Increase the separation between the equipment
- and receiver Connect the equipment into an outlet on a
- circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## Set alert tone

## Low battery tone You can set the parent unit to beep when the

parent unit operates in low battery condition. 1. Press MENU when the parent unit is idle.

- 2. Press ▼ or ▲ to choose Alert Tone, then press SELECT.
- 3. Press **SELECT** again to choose Low Battery Tone
- 4. Press  $\triangledown$  or  $\blacktriangle$  to choose **On** or **Off**, then press SELECT to confirm your selection.

## No link alert

You can set the parent unit to beep when the link between the parent unit and the baby unit is lost.

- 1. Press **MENU** when the parent unit is idle. Press ▼ or ▲ to choose Alert Tone, then
- press SELECT.
- 3. Press ▼ or ▲ to choose No Link Alert, then press SELECT.
- 4. Press  $\mathbf{\nabla}$  or  $\mathbf{\Delta}$  to choose **On** or **Off**, then press SELECT to confirm your selection.

## Night vision

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the baby unit being viewed detects low light levels, the infrared LEDs are switched on automatically. The images from this baby unit is in black and white, and earrowappears on screen.

## **O**NOTES

- It is normal if you see a short white glare on your parent unit screen as the baby unit is adapting to the dark environment
- When the infrared LEDs are on, the image is in black and white. This is normal due to external light sources.

## 

Depending on the surroundings and other interfering factors, like lightings, objects, colors and backgrounds, the display resolution may vary Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display

## Pair new baby unit (VM300)

The baby units and parent unit provided are already paired. You can add or replace any baby units (VM300, purchased separately) to your video and audio monitor system. You can pair a maximum of four baby units to your parent unit.

For more details, refer to the user's manual that comes with your VM300 new baby unit.

## eneral product care

To keep this product working well and looking good, follow these guidelines

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture. • Avoid dropping the product or treating it roughly.
- Clean with a soft cloth. DO NOT immerse the parent unit and the baby
- unit in water and do not clean them under the tap. • DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.

## Storage

When you are not going to use the baby monitor for some time, remove the rechargeable battery fror the parent unit. Store the parent unit, the baby uni and the adapters in a cool and dry place.

Mises en garde

- Utilisez et entreposez le produit à une température entre 0° C (32°F) et 40°C (104° F).
- 2. N'exposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de chauffage.
- 3. Le bloc-piles ne doit pas être exposé à la chaleur excessive telle que la lumière du soleil ou au feu.
- 4. Assurez-vous que le moniteur et le cordon de l'adaptateur sont toujours hors de portée des enfants, à au moins 1 mètre (3 pieds) de l'enfant ou du berceau, pour éviter tout risque de strangulation
- Ne jamais placer le moniteur à l'intérieur du berceau ou du parc de bébé. Ne jamais couvrir le moniteur ou l'unité (s) portative avec un article el une serviette ou une couverture.
- D'autres équipements électroniques peuvent produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur vidéo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil, radios, téléphones cellulaires, interphones, moniteurs, téléphones, ordinateurs personnels. électroménagers et téléphones sans fil.

## Stimulateurs cardiaques implantés dans

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil) :

L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiagues implantés dans 'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins:

## Avis aux détenteurs de stimulateurs cardiaques

- Vous devriez maintenir les dispositifs sans fil à au moins six pouces du simulateur cardiaque.
- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiague, tel que dans une poche de chemise, lorsque celui-ci est en marche.

L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci.

## Champs électromagnétiques (EMF)

Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce quide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons auiourd'hui

## What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer or "vou") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

#### What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge a Materially Defective Product. If we repai the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will etain defective parts, modules, or equipmen Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days

## How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty. this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is

#### What is not covered by this limited warranty? This limited warranty does not cover:

- 1. Product that has been subjected to misuse, accident, shipping or other physical damage. improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
- 2. Product that has been damaged due to repair, alteration or modification by anyone other than an
- authorized service representative of VTech; or 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability,
- or cable or antenna systems; or 4. Product to the extent that the problem is caused
- by use with non-VTech accessories; or
- 5. Product whose warranty/quality stickers, product

Other limitations

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377

**NOTE:** Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call. Except as provided by applicable law, you assume

the risk of loss or damage during transit and transportation and are responsible for delivery o nandling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charge are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any furthe repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that

## What must you return with the Product to get

1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction

2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and 3. Provide your name, complete and correct mailing

address, and telephone number.

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Why does the parent unit beep/vibrate frequently in <b>SPLIT-VIEW</b> mode?	You may have set the sound sensitivity level to <b>Highest</b> when the sound alert (and vibration) feature are turned on. The parent unit notifies you of all sounds including background noise with beeps (or vibrations). Adjust the sound sensitivity to a lower level.
Why does the parent unit react too quickly to other sounds?	The baby unit also picks up other sounds than those of your baby. Adjust the sensitivity level to a lower level or lower the parent unit speaker volume.
Why don't I hear a sound/ Why can't I	The parent unit speaker volume may be too low or off. Press +/VOL to increase the volume.
hear my baby cry?	You may have set a low sound sensitivity level. See <b>Adjust the</b> <b>sound sensitivity of the baby</b> <b>unit</b> to set to a higher level.
Why can't I establish a connection? Why is the connection	The baby units may be out of range. Move the parent unit closer to the baby units (observe the minimum distance of 1 meter/ 3 feet).
lost every now and then? Why are there sound interruptions?	Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible.

## nportant safety instruction

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- 1. Follow all warnings and instructions marked on the product.
- 2. Adult setup is required
- 3. This product is intended as an aid. It is not a substitute for responsible and proper adult
- supervision and should not be used as such. This product is not intended for use as a medical
- Do not use this product near water. For example do not use it next to a bath tub, wash bowl kitchen sink, laundry tub or swimming pool, or in a wet basement or shower
- 6. **CAUTION:** Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or eplacement battery pack (BT198555/BT298555) for the parent unit. Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in The RBRC<sup>®</sup> sea

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (ar unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidenta consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cos of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/ provinces do not allow the exclusion or limitation or cidental or consequential damages, so the above limitation or exclusion may not apply to you.

## Please retain your original sales receipt as proof of purchase.
