Add and register a handset

You can add new CS6909 handsets (purchased separately) to your CS6919/CS6929 telephone system. Your telephone system supports a maximum of five handsets.

Each handset must be registered with the telephone base before use. When first purchased, each expansion handset displays To register HS... and ...see manual alternatively. **O**NOTE

- Charge the new handset without interruption for at least 30 minutes before registering it to the telephone base.
- To register a handset to the telephone base: • Place the new handset in the telephone

CS6929 base Do not place the handset in the charger.

After about 10 seconds, the handset displays **Registering...**. When the registration process completes, the handset displays Registered and you hear a beep. The registration process takes about 90 seconds.

# Deregister handsets

If you want to replace a handset or reassign the designated handset number of a registered handset, you must deregister all the handsets and then individually register each handset.

If you want to register a handset to another telephone base, you must deregister all handsets, and then register each handset individually to the desired telephone base.

# To deregister all handsets from the

elephone base: Press and hold FIND HANDSET on the telephone base for about 10 seconds until the **IN USE** light on the telephone base turns on and starts flashing.

- 2. Immediately press FIND HANDSET again. You must press FIND HANDSET while the **IN USE** light is still flashing. The **IN USE** light turns off, and you hear a confirmation tone.
- 3. All handsets display **To register HS...** and ... see manual alternately when the deregistration process completes. The deregistration process takes about 10 seconds.

# Operating range

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance - which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays Out of range or no pwr at base. If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press TALK . Move

ECO	The ECO mode activates automatically to reduce power consumption when the handset is within range from the telephone base.	
NEW	There are new caller ID log entries.	

### Install the battery

Install the battery as shown below. **O**NOTES

- Use only the battery provided.
- If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Charge the battery provided with or identified for use with this product only in accordance with the instructions and limitations specified in this manual.

#### Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless telephones):

Wireless Technology Research, LLC (WTR), an independent research entity. led a multidisciplinary evaluation of the interference between portable wireless telephones and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

#### Pacemaker patients

- Should keep wireless telephones at least six inches from the pacemaker.
- Should NOT place wireless telephones directly over the pacemaker, such as in a breast pocket, when it is turned ON.
- Should use the wireless telephone at the ear opposite the pacemaker.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless telephones.

#### About cordless telephones

- **Privacy:** The same features that make a cordless telephone convenient create some limitations. Telephone calls are transmitted between the telephone base and the cordless handset by radio waves, so there is a possibility that the cordless telephone conversations could be intercepted by radio receiving equipment within range of the cordless handset. For this reason, you should not think of cordless telephone conversations as being as private as those on corded telephones.
- **Electrical power:** The telephone base of this cordless telephone must be connected to a working electrical outlet. The electrical outlet should not be controlled by a wall switch. Calls cannot be made from the cordless handset if the telephone base is unplugged, switched off or if the electrical power is interrupted.
- Potential TV interference: Some cordless telephones operate at frequencies that may cause interference to televisions and VCRs. To minimize or prevent such interference, do not place the telephone base of the cordless telephone near or on top of a TV or VCR. If interference is experienced, moving the

cordless telephone farther away from the TV or VCR often reduces or eliminates the interference

- Rechargeable batteries: Exercise care in handling batteries in order not to create a short circuit with conducting material such as rings, bracelets, and keys. The battery or conductor may overheat and cause harm. Observe proper polarity between the battery and the battery charger.
- Nickel-metal hydride rechargeable **batteries:** Dispose of these batteries in a safe manner. Do not burn or puncture the battery. Like other batteries of this type, if burned or punctured, they could release caustic material which could cause injury.

### The RBRC<sup>®</sup> seal

The RBRC<sup>®</sup> seal on the nickel-metal hydride battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada The RBRC<sup>®</sup> program provides a convenient alternative to placing used nickel-metal hydride batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation in RBRC<sup>®</sup> makes it easy for you to drop off the spent battery at local retailers participating in the RBRC<sup>®</sup> program or at authorized VTech product service centers. Please call 1 (800) 8 BATTERY® for information on Ni-MH battery recycling and disposal bans/ restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

RBRC<sup>®</sup> and 1 (800) 8 BATTERY<sup>®</sup> are registered trademarks of **Rechargeable Battery Recycling** Corporation.

### FCC, ACTA and IC regulations

#### FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can

- Adjust only those controls that are covered by the operation instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation
- If the product has been dropped and the telephone base and/or handset has been damaged.
- If the product exhibits a distinct change in performance
- 14. Avoid using a telephone (other than cordless) during an electrical storm. There is a remote risk of electric shock from lightning.
- 15. Do not use the telephone to report a gas leak in the vicinity of the leak. Under certain circumstances, a spark may be created when the adapter is plugged into the power outlet, or when the handset is replaced in its cradle. This is a common event associated with the closing of any electrical circuit. The user should not plug the phone into a power outlet, and should not put a charged handset into the cradle, if the phone is located in an environment containing concentrations of flammable or flame-supporting gases, unless there is adequate ventilation. A spark in such an environment could create a fire or explosion. Such environments might include: medical use of oxygen without adequate ventilation; industrial gases (cleaning solvents; gasoline vapors; etc.); a leak of natural gas; etc.
- 16. Only put the handset of your telephone next to your ear when it is in normal talk mode.
- 17. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the
- equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The handset may be safely held against the ear of the user. The telephone base shall be installed and used such that parts of the user's body other than the hands are maintained at a distance of approximately 20 cm (8 inches) or more.

This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B)

#### FCC Part 68 and ACTA

This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). The label on the back or bottom of this equipment contains, among other things, a product identifier in the format US:AAAEO##TXXXX. This identifier must be provided to your telephone service provider upon request.

The plug and jack used to connect this equipment

parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

#### How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer

# What is not covered by this limited warranty?

This limited warranty does not cover:

- 1. Product that has been subjected to misuse accident, shipping or other physical damage improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liauid intrusion; or
- 2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
- Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
- 4. Product to the extent that the problem is caused
- Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
- 6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
- 7. Product returned without a valid proof of purchase (see item 2 on the next page); or
- 8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

How do you get warranty service? To obtain warranty service in the United States of America, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or dial

1 (800) 267-7377. NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service

to premises wiring and the telephone network must comply with applicable Part 68 rules and technical requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See the installation instructions in the user's manual

The Ringer Equivalence Number (REN) is used to determine how many devices you may connect to your telephone line and still have them ring when you are called. The REN for this product is encoded as the 6th and 7th characters following the US: in the product identifier (e.g., if ## is 03, the REN is 0.3). In most, but not all areas, the sum of all RENs should be five (5.0) or less. For more information, contact your telephone service provider.

This equipment may not be used with Party Lines. If you have specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone service provider or a qualified installer.

If this equipment is malfunctioning, it must be unplugged from the modular jack until the problem has been corrected. Repairs to this telephone equipment can only be made by the manufacturer or its authorized agents. For repair procedures, follow the instructions outlined under the Limited warranty.

If this equipment is causing harm to the telephone network, the telephone service provider may temporarily discontinue your telephone service. The telephone service provider is required to notify you before interrupting service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone service provider is required to inform you of your right to file a complaint with the FCC. Your telephone service provider may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone service provider is required to notify you if such changes are planned.

If this product is equipped with a corded or cordless handset, it is hearing aid compatible. If this product has memory dialing locations, you may choose to store emergency telephone numbers (e.g., police, fire, medical) in these locations. If you do store or test emergency numbers, please

location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

#### What must you return with the Product to get warranty service?

- 1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or
- difficulty: and 2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model)
- and the date of purchase or receipt; and Provide your name, complete and correct mailing address, and telephone number.

#### Other limitations

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all othe written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you

specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.

Remain on the line and briefly explain the reason for the call before hanging up. Perform such activities in off-peak hours, such as

early morning or late evening.

#### Industry Canada

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

Privacy of communications may not be ensured when using this phone. The term "IC:" before the certification/ registration number only signifies that the

Industry Canada technical specifications were The Ringer Equivalence Number (REN) for

this terminal equipment is 0.1. The REN is an indication of the maximum number of devices allowed to be connected to a telephone interface The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

# This product meets the applicable Industry Canada technical specifications

### California Energy Commission battery charging testing instructions

This telephone meets the California Energy Commission (CEC) regulations for energy consumption. It is not necessary to activate the energy conserving mode during normal usage. unless you want to charge the battery only and disable all telephone functions

#### To activate the CEC battery charging testing mode:

- 1. Unplug the telephone base power adapter from the power outlet. Make sure all handsets are plugged with charged batteries before proceeding.
- 2. While you press and hold //FIND HANDSET, plug the telephone base power adapter back to the power outlet.
- 3. After about 20 seconds, when the **IN USE** light starts flashing, release **FIND HANDSET** and then press it again within 2 seconds

Technical specifications			
Transmit freuency	1921.536-1928.448 MHz		
Channels	5		
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environment conditions at the time of use.		
Power requirements	Handset: 2.4V Ni-MH battery Charger: 6V AC @ 300mA

téléphone contre les sources d'humidité la poussi re, les vapeurs et les liquides

7. Le boîtier de l'appareil est doté de fentes et d'ouvertures d'aération situées l'arri re ou en dessous. Afin d'emp cher la surchauffe. ces ouvertures ne doivent pas tre obstruées en plaçant l'appareil sur un lit, divan, tapis ou autre surface similaires. Ne placez pas cet appareil proximité d'un élément de chauffage ni d'une plinthe électrique. De plus, ne l'installez pas dans une unité murale ou un cabinet fermé qui ne poss de pas d'aération

Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur les étiquettes de l'appareil. Si vous ne connaissez pas le voltage de votre maison, consultez votre marchand ou votre fournisseur d'électricité. Ne déposez rien sur le cordon d'alimentation. Installez cet appareil dans un endroit sécuritaire. Lo personne ne pourra trébucher sur la ligne d'alimentation ni le cordon téléphonique modulaire.

10. N'insérez jamais d'objets travers les fentes et ouvertures de cet appareil, car ils pourraient toucher des points de tension dangereux ou court-circuiter des pi ces, ce qui constituerait un risque d'incendie ou d'électrocution. N'échappez pas de liquides dans l'appareil

 Afin de réduire les risques d'électrocution. ne démontez pas l'appareil, mais apportez-le plutôt un centre de service qualifié s'il doit tre réparé. En enlevant le couvercle, vous vous exposez des tensions dangereuses ou autres dangers similaires. Un remontage

inadéquat peut tre l'origine d'une électrocution lors d'une utilisation ultérieure de l'appareil. Débranchez l'appareil avant de

procéder au nettoyage. Utilisez un chiffon humide et doux.

12. Ne surchargez pas les prises de courant et les rallonges. 13. Débranchez cet appareil de la prise

de courant et communiquez avec le département de service la client le de

VTech dans les cas suivants: Lorsque le cordon d'alimentation est endommagé ou écorché.

 Si du liquide a été échappé dans l'appareil.

• Si l'appareil a été exposé une source d'humidité telle que la pluie ou l'eau. Si le produit ne fonctionne pas normalement en respectant les instructions de fonctionnement.

Réglez uniquement les commandes indiquées dans le les instructions de

fonctionnement. Les réglages incorrects des autres commandes pourraient provoquer un dommage qui pourrait exiger un travail exhaustif de la part d'un technicien autorisé afin de rétablir le fonctionnement normal de l'appareil

- Si le produit a été échappé et que le socle et/ou le combiné a été endommagé.
- · Si le produit affiche une nette diminution de sa performance.
- Évitez d'utiliser un téléphone (autre qu'un 14. sans fil) pendant un orage. Les éclairs peuvent tre l'origine d'une électrocution.
- 15. N'utilisez pas le téléphone pour rapporter une fuite de gaz proximité de la fuite. En certaines circonstances, une flamm che pourrait tre provoquée lorsque l'adaptateu est branché une prise de courant, ou lorsque le combiné est déposé sur le socle. Ceci est un événement commun associé la fermeture d'un circuit électrique. L'utilisateur ne devrait pas brancher le téléphone une prise de courant, et ne devrait pas déposer le combiné chargé sur le socle, si le téléphone se trouve proximité d'un endroit comportant des concentrations de gaz inflammables, moins que la ventilation soit adéquate. Une flamm che dans un tel endroit pourrait provoquer un incendie ou une explosion. De tels environnements peuvent comprendre: des endroits o l'on utilise de l'oxyg ne médical sans ventilation adéquate; des gaz industriels (dissolvants de nettovage, des vapeurs d'essence, etc.); une fuite de gaz naturel, etc.
- 16. Ne placez que le combiné de votre téléphone pr s de votre oreille lorsqu'en mode de conversation.
- 17. Ces adaptateurs ont été conçus pour tre orientés en position verticale ou montés au sol. Les broches ne sont pas conçues pour maintenir l'adaptateur en place si celui-ci est barnché dans une prise au plafond ou sous une table/ armoire

**CONSERVEZ CES INSTRUCTIONS** 

- MISE EN GARDE : N'utilisez que la pile incluse
- Ne jetez pas la pile au feu. Vérifiez les instructions spécifiques de mise aux rebus auprès des autorités locales.
- N'ouvrez pas et ne mutilez pas la pile. L'électrolyte qui s'en échapperait est corrosif et pourrait causer des br lures ou des blessures aux yeux ou la peau. L'électrolyte est toxique si avalé

- Sovez prudents lorsque vous manipulez les piles afin d'éviter les courts-circuits provogués par des matériaux conducteurs.
- Rechargez la pile incluse avec cet appareil, selon les instructions et limites spécifiées dans ce quide d'utilisation

#### Stimulateurs cardiaques implantés dans l'organisme

Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans

L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiagues implantés dans l'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins:

#### Avis aux détenteurs de stimulateurs cardiagues

- Ils doivent tenir le téléphone sans fil une distance d'au moins six pouces du stimulateur cardiague
- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiague. tel que dans une poche de chemise, lorsque celui-ci est en marche.
- Ils doivent utiliser le téléphone sans fil en l'appuyant sur l'oreille qui se trouve dans la direction opposée au stimulateur cardiaque.

L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent un téléphone sans fil proximité de ceux-ci.

### À propos des téléphones sans fil

- Alimentation électrique: Les m mes caractéristiques qui constituent des avantages pour les téléphones sans fil affichent également des restrictions. Les appels téléphoniques sont transmis entre le combiné sans fil et le socle par le biais d'ondes radio ; il y a donc la possibilité que vos conversations téléphoniques sans fil soient interceptées par des équipements de réception radio se trouvant dans la portée du combiné sans fil Pour cette raison, vous ne devez pas percevoir les communications téléphoniques sans fil comme étant aussi confidentielles.
- Alimentation électrique: Le socle de ce téléphone sans fil doit tre branché une prise

électrique fonctionnelle. La prise électrique ne doit pas tre contrôlée par un interrupteur mural. Les appels ne pourront pas tre effectués du combiné sans fil si le socle est débranché ou mis hors tension ou si le courant est coupé.

- Possibilité d'interférences aux téléviseurs: Certains téléphones sans fil fonctionnent sur des fréquences pouvant causer des interférences aux téléviseurs et aux magnétoscopes. Pour réduire ou prévenir de telles interférences, ne placez pas le socle du téléphone sans fil pr s ou sur un téléviseur ou magnétoscope. S'il y a présence de parasites il est conseillé d'éloigner le téléphone sans fil du téléviseur ou du magnétoscope afin de réduire possiblement les interférences.
- Piles rechargeables: Manipulez les piles avec soin afin de ne pas les court-circuiter avec des bagues, bracelets ou clés. Les piles ou le conducteur peut surchauffer et causer des blessures. Respectez la polarité adéquate entre la pile et le chargeur.
- Les bloc-piles rechargeables à l'hydrure métallique de nickel: Jetez ces blocs-piles de mani re écologique et sécuritaire. Ne les incinérez pas et ne les percez pas. Tel que les autres piles de ce type, elles pourraient dégager une mati re toxique qui peut causer des blessures corporelles si elles sont br lées ou percées.

# Limited warranty

# What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "vou") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

#### What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective
