VM981

vtech®

Quick start guide

1 Set up Wi-Fi connection

1 After the parent unit is fully charged, power on the parent unit.

3s

**2** Tap to select your prefered and secured Wi-Fi network with good signal strength.

Wi-Fi Setting

Select Wi-Fi

Select a password-protected 2.4GHz Wi-Fi network for your baby monitor from the list below. The network must be password-protected to connect. If your network is hidden, set it to visible during installation.

2 Add camera

1 After connecting the parent unit to your Wi-Fi network, tap to select the VM981 camera.

Add Camera
① ② ③ ④
Select camera model

2 Follow the instructions shown on screen, then tap ➔.

Add Camera
① ② ③ ④
Prepare camera for installation

1.Connect the power cord to the camera
2.Wait until the orange LED stays on
3.Press and hold the Pair/Reset button on the bottom of the camera. Release when you see the blue and orange LEDs flashing. Then tap next.
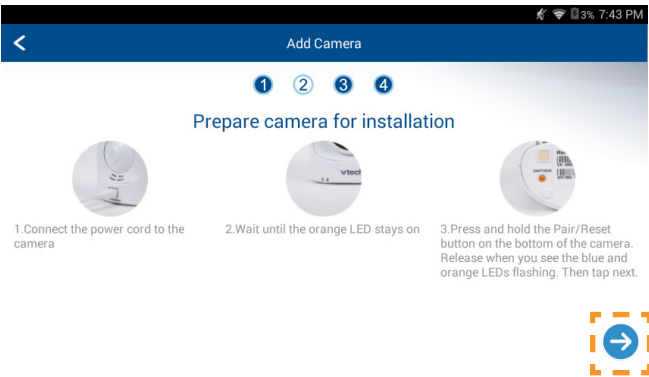

3 • Enter a security key for the camera. Repeat entering the security key to confirm. The security key must contain 8 to 12 alphanumeric characters with at least one uppercase character and one number.
• Tap ➔ to continue.

Add Camera
① ② ③ ④
Setup camera name and security key
The camera will be added to the same WiFi network as the parent unit.
Please enter desired camera name and security key.

Wi-Fi   belkin.da8
Camera name   VTECH_980_6452
Security key   Security key
Confirm security key   Confirm security key

Security key must contain 8 to 12 characters, at least 1 uppercase letter and 1 number. It should not contain special characters.

NOTE

• Write down or remember the security key. You will need to provide the same security key if you want to access your camera remotely.

4 After the camera unit is successfully added to your parent unit, the camera list displays the preview of your camera unit.
• The camera list displays two camera previews. If you have more than two camera units, swipe to left shows more of your camera units.
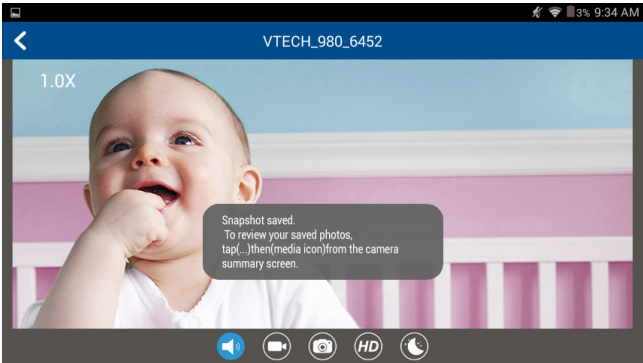

vtech
NOTE

• The camera preview will be refreshed every second.

Basic operation

Camera settings

On the camera list, tap ⊙ of a camera, and then tap ⚙ to go to its camera settings.

Parent unit settings

On the camera list, tap ☰ and then tap **Monitor Settings** to go to the parent unit settings.

Update software and camera firmware

To ensure that your HD video monitor is always at its best performance, check for the camera's firmware updates and the parent unit's software updates from time to time.

- In **Camera settings,** scroll to and tap **Camera information**, then tap **Check for updates** and follow instructions.
- To check for latest software updates, tap ☰ and then tap **Help**. Then, tap **Check updates** and follow instructions.

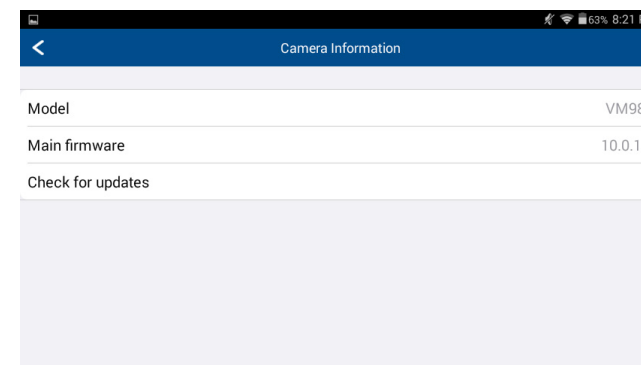

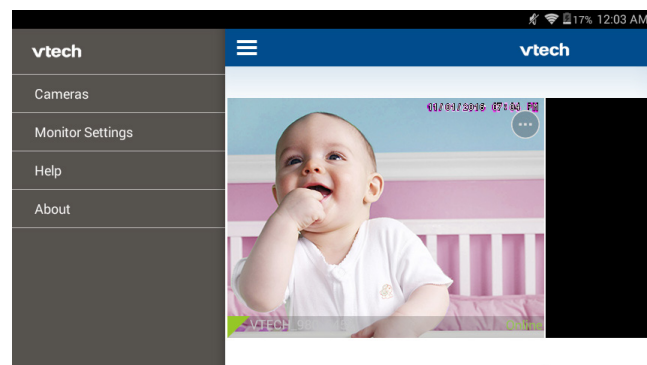

Read the online app manual for complete operation instructions

1 You can refer to the online app manual for the complete operation instructions.
- After adding the camera unit, tap ☰ to display the side menu.
2 Tap **Help**.

3 Tap **App manual**.

4 Tap **VM981/VM980** to read the online app manual.

Remote monitoring

1 Download the free **MyVTech Baby** mobile app from the App Store or Google Play® store and install it to a mobile device, then you can use your mobile device and the mobile app to monitor your areas remotely.

🔖 NOTE

- Make sure your mobile device meets the minimum requirement for the mobile app.

Minimum requirement

The mobile app is compatible with:
- Android® 4.4 or later; and
- iOS 8.0 or later.

Install MyVTech Baby mobile app

1. Browse the App Store or the Google Play store.
2. Search for the mobile app with the keyword "myvtech baby".
3. Download and install the **MyVTech Baby** mobile app to your mobile device.

**2** Tap ▢ to run the mobile app on your mobile device, and then create a user account.
**3** Verify your account via the email link, then sign in to your account.
4 Follow the instructions on the screen to add the camera to your mobile account.
- Make sure your mobile device is connected to the Wi-Fi network that your parent unit has connected to when adding the camera.
5 Type in the security key you have set for the camera with your parent unit. See Step 4 in **2** **Add camera** section.
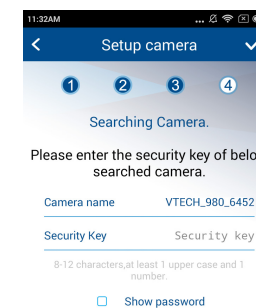

6 Start using your monitoring system remotely.
🔖 NOTES

- You must complete the camera setup in the above **1** **Set up Wi-Fi network** and **2** **Add camera** sections before you can access your camera remotely.
- Tap ☰ on the camera list to display the side menu, and then tap **Help** to refer to the online mobile app manual for the complete operation instructions.
