## Charger overview

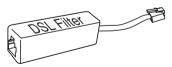

## Connect

You can choose to connect the telephone base for desktop usage or wall mounting.

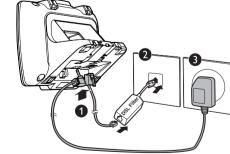

## **Ø**NOTES

- Use only the adapters provided.
- Make sure the electrical outlets are not controlled by wall switches.
- The adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet

 If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, make sure you install a DSL filter (not telephone wall jack. Contact your DSL service provider for more information

## Connect the telephone base

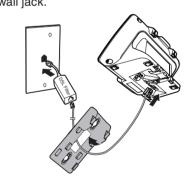

Connect the charger

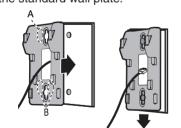

## Mount the telephone base

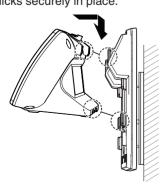

Connect the telephone line cord to the telephone base. Route it through the wall mount bracket, and then connect it to the wall jack.

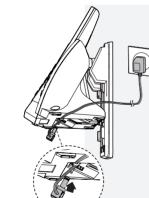

Align and place the wall mount bracket on the standard wall plate.

3. Align and place the telephone base on the wall mount bracket. Slide it down until it clicks securely in place.

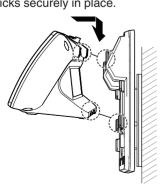

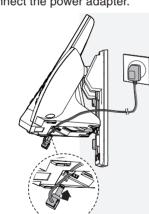

## Install and charge the battery

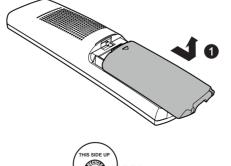

## Install the battery

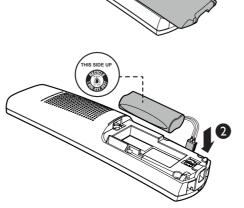

Install the battery as shown below.

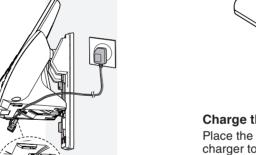

- **Ø**NOTES Use only the battery provided.
- · Charge the battery provided with this product only in accordance with the instructions and limitations specified in this manual
- If the handset will not be used for a long time possible leakage.

Place the handset in the telephone base or the charger to charge.

Once you have installed the battery, the handset LCD display indicates the battery status (see the table below).

## **⊘**NOTES

· For best performance, keep the handset in the telephone base or charger when not in use.

	Battery indicators	Battery status	Action
	The screen is blank, or shows <b>Put in charger</b> and flashes.	The battery has no charge or very little charge. The handset cannot be used.	Charge without interruption (at least 30 minutes).
	The screen shows <b>Low</b> battery and [] flashes.	The battery has enough charge to be used for a short time.	Charge without interruption (at least 30 minutes).
	The screen shows HANDSET X.	The battery is charged.	To keep the battery charged, place it in the telephone base or charger when not in use.

## Before use

After you install your telephone or power returns following a power outage, the handset will prompt

- 1. Use the dialing keys (0-9) to enter the month (MM), date (DD) and year (YY). Then
- 2. Use the dialing keys (0-9) to enter the hour (HH) and minute (MM). Then press ▼ or ▲ to choose AM or PM.
- 3. Press **SELECT** to save.

Press TALK. If you hear a dial tone, the installation is successful.

- Make sure the installation procedures described above are properly done.
- · It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/ VoIP service provider for more information

## Operating range

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and telephone base can communicate over only a certain distance which can vary with the locations of the telephone base and handset, the weather, and the layout of your home or office.

When the handset is out of range, the handset displays Out of range or no pwr at base. If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press TALK. Move closer to the telephone base, and then press TALK to answer the call. If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

- 2. Press ▼ or ▲ until the screen displays the
- Press SELECT to enter that menu.

# deregistration.

## **Redial list**

Each handset stores the last 10 telephone numbers dialed. When there are already 10 entries, the oldest entry is deleted to make room for the new entry.

## Review the redial list

- 1. Press **REDIAL** when the handset is not in use.
- 2. Press **▼**, **△**, or **REDIAL** repeatedly until the desired entry displays.

### Dial a redial list entry

 When the desired entry displays, press TALK or to dial.

### Delete a redial list entry

• When the desired redial entry displays, press DELETE.

## Intercom

Use the intercom features for conversations between two handsets.

- 1. Press **INT** on your handset when not in use. Use the dialing keys to enter a destination handset number if necessary 2. To answer the intercom call, press TALK, ◄», or
- any dialing key on the destination handset. To end the intercom call, press **OFF** or place
- the handset back in the telephone base or charger

### Answer an incoming call during an intercom call

If you receive an incoming call during an intercom call, there is an alert tone.

- 6. Use the dialing keys to enter the name (up to 15 characters). Additional key presses show To answer a call, press TALK. The intercom call other characters of that particular key. ends automatically.
- · To end the intercom call without answering the outside call, press **OFF**. The intercom call ends and the telephone continues to ring.

## Call transfer using intercom

While on an outside call, you can use the intercom feature to transfer the call from one handset to another.

- 1. Press **INT** on your handset during a call. The current call is put on hold. Use the dialing keys to enter a destination handset number if necessary
- 2. To answer the intercom call, press TALK, ◀测, or any dialing key on the destination handset. You can now have a private conservation before transferring the call.
- 3. From this intercom call, you have the following options:
- You can let the destination handset join you on the outside call in a three-way conversation. Press and hold **INT** on the originating handset.
- You can transfer the call. Press **OFF**, or place your handset back in the telephone base or charger. Your handset displays **Line in use**. The destination handset is then connected to the outside call.
- You can press **INT** to switch between the outside call (Outside call displays) and the intercom call (Intercom displays)
- The destination handset can end the intercom call by pressing **OFF**, or by placing the handset back in the telephone base or charger. The outside call continues with the original system handset.

## Phonebook

The phonebook can store up to 50 entries, which are shared by all handsets. Each entry may consist of a telephone number up to 30 digits, and a name up to 15 characters.

## Add a phonebook entry

- Press **MENU** when the phone is not in use. Press **SELECT** to choose **Phonebook**.
- Press **SELECT** again to choose Add new entry.

### 4. Use the dialing keys to enter the number The caller ID log stores up to 30 entries. Each (up to 30 digits)

5. Press **SELECT** to move to enter the name.

your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the General product care voicemail settings and listen to messages. Taking care of your telephone **8**NOTE

Your cordless telephone contains sophisticated After you have listened to all new voicemail electronic parts, so it must be treated with care. messages, the indicators on the handset turn off automatically.

## Set your voicemail number

You can save your access number on each handset for easy access to your voicemail. After you saved the voicemail number, you can press and hold 1 to retrieve voicemail. Your telephone can be damaged if it gets wet.

- Press MENU when the handset is not in use.
- Scroll to **Settings** and then press **SELECT**.
- Scroll to Voicemail # and then press SELECT Use the dialing keys to enter the voicemail
- number (up to 30 digits). 5. Press **SELECT** to save.
- Turn off the new voicemail indicators If you have retrieved your voicemail while away from home, and the handset still displays the new voicemail indicators, use this feature to turn off

### the indicators. **6**NOTE

This feature turns off the indicators only, it does not delete your voicemail messages

You can add new handsets (CS6909), cordless headsets (IS6100) or speakerphones (MA3222 or AT&T TL80133) to your telephone system. All accessories are sold separately. Your telephone base supports a maximum of five devices. For more details, refer to the user's manual that comes with your new device.

1. Press MENU when the handset is not in use

2 Scroll to Settings and then press SELECT

**SELECT**. You hear a confirmation tone.

3. Scroll to **Clr voicemail**, and then press

Expand your telephone system

## ECO mode

This power conserving technology reduces power consumption for optimal battery performance. The ECO mode activates automatically whenever the handset is synchronized with the telephone base.

### Avoid rough treatment

Place the handset down gently. Save the original packing materials to protect your telephone if

you ever need to ship it. **Avoid water** 

Do not use the handset outdoors in the rain or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower

### **Electrical storms** Electrical storms can sometimes cause power

surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms

## Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

## Limited warranty

What does this limited warranty cover? The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and

### used in the United States of America and Canada What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

### What is not covered by this limited warranty? This limited warranty does not cover: 1. Product that has been subjected to misuse,

- accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or 2. Product that has been damaged due to repair,
- alteration or modification by anyone other than an authorized service representative of VTech; or 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
- 4. Product to the extent that the problem is caused by use with non-VTech accessories; or

- Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
  - Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or

Product returned without a valid proof of purchase

### of customer controls, and installation or repair of systems outside the unit.

(see item 2 on the next page); or

How do you get warranty service? To obtain warranty service in the United States of America, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or dial

Charges for installation or set up, adjustment

1 (800) 267-7377. NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call. Except as provided by applicable law, you assume the

risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

## What must you return with the Product to get

- Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and 2. Include a "valid proof of purchase" (sales receipt)
- and the date of purchase or receipt; and Provide your name, complete and correct mailing address, and telephone number.

Other limitations

identifying the Product purchased (Product model)

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no

### other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you

specific legal rights, and you may also have other rights which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (ar unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or

### exclusion may not apply to you. Please retain your original sales receipt as proof of purchase.

## Technical specifications

Frequency control	Crystal controlled PLL synthesizer
Transmit	Handset: 1921.536-1928.448 MHz
freuency	Telephone base: 1921.536-1928.448 MHz
Channels	5
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environment conditions at the time of use.
Power requirements	Handset: 2.4V Ni-MH battery
	Telephone base: 6V AC @ 300mA
	Charger: 6V AC @ 300mA
Memory	Phonebook: 50 memory locations; up to 30 digits and 15 characters
	Caller ID log: 30 memory locations; up to 24 digits

and 15 characters
